Econoclasts Brian Domitrovic, 2023-10-03 The history we can't afford to forget At last the definitive history of supply side economics an incredibly timely work that reveals the foundations of America's prosperity when those very foundations are under attack In the riveting groundbreaking book *Econoclasts* historian Brian Domitrovic tells the remarkable story of the economists journalists Washington staffers and ultimately politicians who showed America how to get out of the 1970s stagflation and ushered in an unprecedented quarter century run of growth and opportunity Based on the author's years of archival research *Econoclasts* is a masterful narrative history in the tradition of Amity Shlaes's *The Forgotten Man* and John Steele Gordon's *An Empire of Wealth* *Generational Key to History* Michael A. Susko, 2025-01-17 *Generational Key to History* Tracing Phases From Ancient Egypt to America This work explores the use of a time chart based on generations as a way to understand history A sole reliance on yearly dating tends to obscure the historical reality and deter us from further exploration However patterns are revealed if we number generations and we become intrigued by the connections and hypotheses raised The author uses 15 year intervals to date events and mark when people turn 30 and tend to enter history The 15 year generational interval was first used by the medieval historian Bede and later advocated by Ortega E Gasset a leading Spanish philosopher of the 20th century In brief the phases of history found are 1 A partly invisible beginning phase 0 15 generations 2 An establishment phase at 15 20 generations 3 A consolidating and opening up stage at 30 generations 4 A crisis and creativity phase at 40 generations 5 An empire and inclusionary phase at 50 generations and 6 Renewal or rigidification phase at the 60 generational node Importantly special attention is given to the often neglected 30th generational period in which an openness to beauty and light pervade Interestingly these phases also resonate with the human life cycle The tour of cultures covered includes ancient Egypt Israel Judah Rome and the Medieval Modern Taking us into contemporary times America United States is addressed in the second part of this work You are invited to go on an intriguing journey in which generational patterning becomes a Rosetta key for understanding history **Communication and Educational Technology - E-Book** Suresh
