- A) Punish the child every time the child says "no", to change the behavior
- B) Allow the behavior because this is normal at this age period
- C) Set limits on the child's behavior
- D) Ignore the child when this behavior occurs - Correct Answer -C)
- Set limits on the child's behavior-According to Erikson, the child focuses on independence between ages 1 and 3 years. Gaining independence often means that the child has to rebel against the parents' wishes. Saying things like "no" or "mine" and having temper tantrums are common during this period of development.
