Relearning History Joe Regenbogen,2018-01-15 For many students the traditional approach to the study of history does not work The litany of facts arranged in a chronological sequence often turns out to be mind numbing and forgettable In addition they see little relevance between the past and the world they live in today Relearning History was written for those students Instead of reviewing the traditional time line of the past the focus is directed at questions relevant to the present Why does the two party system dominate American politics Why is wealth so unevenly distributed Why does race and gender still play such a large role in modern society Why has there never been a World War Three These why questions along with 11 others serve as the foundation for a discussion of history so that the study of the past is inexorably linked to a enhanced understanding of the present Students who are currently enrolled in history classes can use Relearning History to supplement and enrich the traditional curriculum Some may even want to use it in place of the traditional curriculum As for those adults who have completed their formal education and never learned much in their earlier history classes this book will give them the chance to finally study history in a meaningful manner

The Writing and Ratification of the U.S. Constitution Russell R. Wheeler,1986 **Closing the Urban-Rural Power Divide** Thor Hogan,2023-09-25 This book proposes a radical reorganization of political and electoral power to address the current political imbalance between urban and rural populations in the United States Hogan argues that despite

being smaller in population a financialist ruralist coalition has effectively used the Constitution especially equal representation in the Senate to create an anti urban vetocracy This political imbalance protects the interests of the financial elite and rural cultural conservatives while effectively blocking urban interests particularly regarding the adoption of a broad range of structural reforms and progressive policy preferences By re dividing many of the largest federated states into smaller city states the book posits the United States would reduce the ability of non urban interests to control the Senate This would allow an empowered urbanite alliance to pass the forward looking legislation the nation needs to remain internationally competitive in the coming decades
