Eco-Reformation Lisa E. Dahill, Jim B. Martin-Schramm, 2016-10-31 In 2017 Christians around the world will mark the five hundredth anniversary of the Reformation In the midst of many appeals for reformation today a growing number of theologians scholars and activists around the world believe Reformation celebrations in 2017 and beyond need to focus now on the urgent need for an Eco Reformation The rise of industrial fossil fuel driven capitalism and the explosive growth in human population endanger the fundamental planetary life support systems on which life as we know it has evolved The collective impact of human production consumption and reproduction is undermining the ecological systems that support human life on Earth If human beings do not reform their relationship with God's creation unspeakable suffering will befall many especially the weakest and most vulnerable among all species The conviction at the heart of this collection of essays is that a gospel call for ecological justice belongs at the heart of the five hundredth anniversary observance of the Reformation in 2017 and as a if not the central dimension of Christian conversion faith and practice into the foreseeable future Like Luther's Ninety Five Theses this volume brings together critical biblical pastoral theological historical and ethical perspectives that constructively advance the vision of a socially and ecologically flourishing Earth **Imagining Multispecies Worlds** Michelle Westerlaken, 2020-06-04 It can be considered the most systemic deadly and all encompassing form of institutional violence that currently exists speciesism the oppression and exploitation of other animals For most

people on our planet speciesism is something completely normalized justified and encouraged through many facets of dominant cultures The field of critical political animal studies and other fields that challenge anthropocentrism have already thoroughly problematized questioned and analyzed speciesist practices but one topic receives little academic attention what can a counter concept to speciesism contain without saying what it is not This thesis is concerned with imagining multispecies worldings with the goal to construct positive rather than negative aspects of a counter concept to speciesism Instead of offering a single answer this work illustrates how additive knowledges regarding the possible meanings of multispecies worlding make worlds richer These knowledges emerge through a repertoire of world making practices with other animals in which we recognize and engage with the ability to respond to each other Thereby this thesis answers to and builds on various scholarly and activist discourses including posthumanism welfarism animal liberationism and is theoretically grounded in feminist epistemologies With a focus on negotiating possibilities this dissertation is also a work of interaction design The design practice involves tracing and negotiating multispecies responses with other animals and expressing those narratives as a design research program These responses are presented as a Multispecies Bestiary in which ten protagonist animals guide the reader through a collection of big enough multispecies stories The thesis thereby illustrates how humans can together with other animals find possible meanings of multispecies worlding not as a single broken solution but as ever expanding directions that can permanently unsettle and unmake the established speciesist order

Understanding New Perspectives of Spirituality Edie Lanphar, Agata Wilczek, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2015 This book deals with the rapidly developing field of spirituality Although having a singularity of focus the chapters have been written by a cross cultural and international set of researchers who discuss critical issues from an interdisciplinary perspective Thus while a broad range of critical aspects emerge the chapters are threaded together by the concept of spirituality as a lone walk While alone the spiritual journey is also deeply connected to others As a deeply human experience the chapters in this book therefore reflect the prismatic viewpoints that form the understandings and experiences of the spiritual walk This book challenges the reader to start to understand the apparent ambiguity this appears to bring to researchers and practitioners Rather than a roadblock to understanding the multiple frames and facets this brings it is instead a rich field for the exploration of the human condition *Religious Environmental Activism in Asia* Leslie E. Animal Narratology Joela Jacobs,2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another s perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling
