institutions and private manors in their native country In *Looted Libraries Looted Books The Swedish Case* Peter Sjökvist gives a summarizing overview of these plunders from which regions and owners full libraries or selected books were taken during the conflicts where they subsequently tended to end up when arriving in Sweden and how they have been received and curated over the years It is argued that it can be questioned whether large portions of the spoils have served any proper user needs in their new contexts *Translation* Pausanias,1898 *The Combat History of the 23rd Panzer Division in World War II* Ernst Rebenitsch,2012-03-21 Complete history of a German tank division that fought exclusively on the Eastern Front **Displaced Archives** James Lowry,2017-02-17 Displaced archives have long been a problem and their existence continues to trouble archivists historians and government officials Displaced Archives brings together leading international experts to comprehensively explore the current state of affairs for the first time Drawing on case studies from around the world the authors examine displaced archives as a consequence of conflict and colonialism analysing their impact on government administration nation building human rights and justice Renewed action is advocated through considerations of the legal approaches to repatriation the role of the international archival community shared heritage approaches and other solutions The volume offers new theoretical technical and political insights and will be essential reading for practitioners academics and students in the field of archives cultural property and heritage management as well as history politics and international relations *Chivalry and the Ideals of Knighthood in France during the Hundred Years War* Craig Taylor,2013-10-10 Craig Taylor's study examines the wide ranging French debates on the martial ideals of chivalry and knighthood during the period of the Hundred Years War 1337-1453 Faced by stunning military disasters and the collapse of public order writers and intellectuals carefully scrutinized the martial qualities expected of knights and soldiers They questioned when knights and men at arms could legitimately resort to violence the true nature of courage the importance of mercy and the role of books and scholarly learning in the very practical world of military men Contributors to these discussions included some of the most famous French medieval writers led by Jean Froissart Geoffroi de Charny Philippe de Mézières Honorat Bovet Christine de Pisan Alain Chartier and Antoine de La Sale This interdisciplinary study sets their discussions in context challenging modern romantic assumptions about chivalry and investigating the historical reality of debates about knighthood and warfare in late medieval France *Spoils of War* Elizabeth Simpson,1997-02 At the three day symposium organized by The Bard Graduate Center for Studies in the Decorative Arts New York distinguished specialists government representatives curators archaeologists historians and journalists former military officers and experts in art law took part in spirited candid and often moving discussions which are fully documented only in this unprecedented book **Killing Abraham Lincoln** Festus Ogunbitan,2012-02 This epideictic oratory is dedicated to Thespis of Icaria the inventor of acting the first actor playwright director and producer in the world's theater My project is a classic drama style of political theater started in Greece thousands of years ago by Thespis of Icaria on the stage for demonstrating the political

views of the Greek civilization This revolution was passed on to the Romans in the Basilica and Supreme Court where Roman politicians communicate their political views to fellow Romans and Countrymen Later the revolution surfaced in England when John Milton Christopher Marlow and William Shakespeare started the classic British theater In the contemporary period America has carried on this tradition on the Senate Floor and the House of Representatives Congress The country has also generated talk show hosts comedians and moviemakers to carry on this tradition of political theater I came across this idea while studying Masters of Arts in Liberal Arts at Sacramento State University in Sacramento California Since then I have been adapting history of the Greeks Romans Americans and other nations into Greek style epideictic drama distinctively reflecting the identities and political views of each nation through classic drama Hoping to permanently retell the history of America I have decided to use Aristotle s theory of catharsis to rewrite America s history through the locus of all presidents to have a permanent knowledge of America s history All the plays shall incorporate the principles of American politics focusing on the values and virtues of the Conservatives and the Liberals

Dryden John Dryden,1878 *War in Human Civilization* Azar Gat,2008 Why do people go to war Is it rooted in human nature or is it a late cultural invention And what of war today is it a declining phenomenon or simply changing its shape This book sets out to find definitive answers to these questions in an attempt to unravel the riddle of war throughout human history *The English Translation of the Fadl Al-Bari* Shabbīr Aḥmad ‘Uṣmānī,1974

The Spanish-American War 1895-1902 Joseph Smith,2014-05-12 Fought in both Caribbean and Pacific and turning on America s superior naval strength this short but decisive war had momentous consequences internationally It ended Spain s imperial power and the US emerged for the first time as an active force in world affairs acquiring amidst much domestic controversy an empire of her own in the Philippines Guam Puerto Rico and Cuba whose struggle against Spain had sparked the war Heavy with implications for twentieth century America the war is explored in its widest context in this engrossing and impressive study

Women and War in Antiquity Jacqueline Fabre-Serris,Alison Keith,2015-12-15 Women in ancient Greece and Rome played a much more active role in battle than previously assumed The martial virtues courage loyalty cunning and strength were central to male identity in the ancient world and antique literature is replete with depictions of men cultivating and exercising these virtues on the battlefield In *Women and War in Antiquity* sixteen scholars reexamine classical sources to uncover the complex but hitherto unexplored relationship between women and war in ancient Greece and Rome They reveal that women played a much more active role in battle than previously assumed embodying martial virtues in both real and mythological combat The essays in the collection taken from the first meeting of the European Research Network on Gender Studies in Antiquity approach the topic from philological historical and material culture perspectives The contributors examine discussions of women and war in works that span the ancient canon from Homer s epics and the major tragedies in Greece to Seneca s stoic writings in first century Rome They consider a vast panorama of scenes in which women are portrayed as spectators critics victims causes and beneficiaries of war This deft

volume which ultimately challenges the conventional scholarly opposition of standards of masculinity and femininity will appeal to scholars and students of the classical world European warfare and gender studies *Unstaging War, Confronting Conflict and Peace* Tony Fry, 2019-07-24 This book presents the concept of unstaging war as a strategic response to the failure of the discourse and institutions of peace This failure is explained by exploring the changing character of conflict in current and emergent global circumstances such as asymmetrical conflicts insurgencies and terrorism Fry argues that this pluralisation of war has broken the binary relation between war and peace conflict is no longer self evident and consequentially the changes in the conditions nature systems philosophies and technologies of war must be addressed Through a deep understanding of contemporary war Fry explains why peace fails as both idea and process before presenting Unstaging War as a concept and nascent practice that acknowledges conflict as structurally present and so is not able to be dealt with by attempts to create peace Against a backdrop of increasingly tense relations between global power blocs the beginnings of a new nuclear arms race and the ever increasing human and environmental impacts of climate change a more viable alternative to war is urgently needed Unstaging War is not claimed as a solution but rather as an exploration of critical problems and an opening into the means of engaging with them **More Than Mere Playthings** Julia C. Fischer, 2016-06-22 This book is inspired by the 2015 Italian Art Society sponsored conference sessions of the American Association of Italian Studies Its seven chapters span the art of ancient Etruria to twentieth century Italy and explore a variety of media including mirrors cameos treasury objects reliquaries ceramics and figurines Contributors approach the topic of the minor arts from a variety of interdisciplinary perspectives including reception use patronage gender issues propaganda and iconography The volume thus fills the lacuna in the scholarship of the minor arts and reveals that the minor arts are unique and worthy of study for their size preciousness patronage audience function portability and material Ultimately in revealing the importance of these objects the book shows that the division between the major and minor arts is no longer valid and that these objects of the minor arts hold as much significance as those of the major arts
