 provide materials that are appropriate to the needs and abilities of a range of abilities in the mathematics class At this stage  
 of their mathematics education students should be required to investigate concepts in considerable depth Accordingly some  
 activities in this book stretch over several pages perhaps requiring students to carry an idea over from day to day as they  
 move through a particular unit This idea of mathematical investigations is intended to provide challenge for students to  
 encourage them to look at the real life aspects of mathematics and to stimulate them to go to even further depths than the
