*Research Methods for Forensic Psychologists* Sarah Brown, Emma Sleath, 2015-06-26. *Research Methods for Forensic Psychologists* is an accessible and comprehensive textbook that introduces students to the research process in forensic psychology. Adopting a problem-based learning approach, this book offers a how-to guide to the whole research process and empowers readers to develop their own programme of research from initial vague ideas to developing a research question to carrying out a methodologically rigorous research project to disseminating the findings. The text is centred on five case studies sufficiently different in nature to address the most common research methodologies. Each case study is linked with a specific research question that will be used to illustrate the research process throughout the rest of the book. Topics covered in the book include Design and Planning including a literature search, a discussion of different sorts of data, practical and feasibility issues, research ethics, and developing a research proposal. Conducting research including the submission of ethics proposals and responding to feedback, collecting data and dealing with the problems and challenges of analysing data. Dissemination of findings, an overview of the different types of papers with examples listed, and other methods of disseminating findings discussed such as conference presentations and the use of social media. Throughout, issues of common difficulty or confusion are highlighted and activities are provided for readers to consider and apply the information discussed further. Additional reading sections and summaries are also provided at the end of each chapter. This book is essential reading for advanced students in Forensic Psychology as well as trainees and practitioners within relevant forensic psychology organisations.

Baumgartner, Andrew S. Jackson, Matthew T. Mahar, David A. Rowe, 2015-02-13 Previous edition Measurement for evaluation in physical education and exercise science Ted A Baumgartner 8th ed 2007 Volunteers in Sport: International perspectives Geoff Nichols, 2016-03-23 Volunteers are central to providing opportunities to play sport whether helping to run sports clubs helping in school sport or at sports events This volume focuses on the volunteers who support clubs Approximately 150 000 sports clubs in the UK are supported by volunteers in roles such as coaches treasurers membership secretaries and other formal roles as well as a myriad of other volunteers who help on a more informal basis This structure of clubs run by volunteers is common to other countries such as Germany Canada Finland and Australia It is a valuable community resource not only for the opportunities it provides for sports participation but also the more general contribution to the quality of communities This club structure has been central to government policy to increase sports participation and has developed from the second half of the 19th century Yet its maintenance relies on a nucleus of core volunteers in each club who take the major roles Recruiting new volunteers especially for these core roles is always difficult Despite central government in the UK having a commitment to developing volunteering clubs are having to adjust to new relationships with local government as funding and subsidy of facility use is reduced Trends in sports participation are away from the traditional team sports and towards more individual participation Club members may demand an experience benchmarked against private or local government providers regarding the club as providing a service as much as an organisation they contribute to The chapters in this book contribute an international perspective to understanding these issues It will be of great value to community sport leaders and scholars of sport sociology and leisure studies This book was published as a special issue of the International Journal of Sport Policy and Politics **Expanding Horizons** Karen J. Ripoll-Núñez, Anna

Laura Comunian, Carrie M. Brown, 2012 *Expanding Horizons Current Research on Interpersonal Acceptance* offers readers an outstanding collection of papers that reflects current trends in research on interpersonal acceptance. Papers in this volume cover a variety of questions and topics with regard to issues of acceptance/rejection by significant figures in parent-child, sibling, peer, and adult intimate relationships. Also, several papers deal with the implications of interpersonal acceptance for the development and educational achievement of children, college students, as well as children with special needs. Lastly, an entire section of the book is devoted to methodological issues in the evaluation of interpersonal acceptance across cultures. The authors draw on the perspectives of different disciplines such as educational psychology, anthropology, sociology, developmental psychology, and family studies. Research findings discussed in this collection of papers have important implications for professionals working in different contexts to strengthen family relationships, teacher and peer relationships in schools, and couple relationships. As such, the book constitutes a useful reference source for graduate students, academic researchers, clinicians, teachers, special educators, school counselors, and service agencies. Scholars who contributed to this book come from different parts of the world, including the Americas, Asia, Australia, Europe, and the Middle East. **Digital**
