## **Spiritually Oriented Psychotherapy For Trauma:**

Spiritually Oriented Psychotherapy for Trauma Donald Franklin Walker, Christine A. Courtois, Jamie D. Aten, 2015 This book is intended for psychotherapists working with traumatized clients in a range of settings We focus on recent developments that have fostered greater sensitivity to spirituality in the ways psychotherapists understand and treat trauma For many years clinicians neglected the links between religion spirituality and trauma or worse viewed religion and spirituality stereotypically as forces that interfered with health and well being This book helps to provide an important corrective to that bias This volume has several themes First the chapters integrate research and practice Throughout we highlight emerging empirical literature that underscores how trauma can affect people not only psychologically socially and physically but spiritually as well In doing so chapter authors provide case examples and clinical illustrations that bring the empirical findings into sharper more human focus

### **Trauma and Coping Mechanisms among Assemblies of God**

**World Missionaries** Valerie A. Rance, 2021-12-21 Trauma from the fall of Adam and Eve forward impacts human lives in overpowering ways A review of the lives of biblical personalities and missionaries reveals shared traumatic experiences In addition to the stress of cultural adjustment missionaries often live in contexts of violence political unrest economic instability natural disasters and relational conflict The examined biblical personalities faced similar issues yet a majority coped with trauma in ways that led to well being The proposed biblical theory of well being assists missionaries to move deeper in their trust of God by utilizing the coping skills of the biblical personalities including asking God for help lifting up their praise and worship to God standing on a sense of call working with God lamenting venting to God in healthy ways embracing a theology of suffering and accepting assistance from friends and family The adherence to the constructs of this theory protects missionaries from the ravages of psychological trauma by avoiding negative coping and developing positive coping skills that lead to trusting in the only One who gives hope in seemingly hopeless situations
