Voices from the Classroom Brian Hand, Lori Norton-Meier, 2011-10-25 There is much attention currently being given to argument based inquiry in national and state curriculum documents Students are being required to be able to generate and evaluate science knowledge and to think critically and judge the value of evidence and explanations The intent of the book is to provide a rich and broad view of the impact of argument based inquiry in the elementary classrooms from the perspective of the teacher All the teachers and professional development authors were engaged in promoting and using argument based inquiry as the approach to teaching science They were implementing the Science Writing Heuristic SWH approach as the argument based approach for classroom practice As researchers we constantly work to present our views of these experiences with the voice of the teachers only being relayed through the perspective of the researcher The intent of this book is to provide an opportunity for us as a community to listen to what the teachers are telling us Importantly as demands are being placed on classroom experiences that provide opportunities for students to pose questions make claims and provide evidence that is to think critically and reason like scientists we need to understand what this looks like from the perspective of the teacher This book brings together a range of elementary teachers from kindergarten through to year 6 who have used the Science Writing Heuristic approach to teach argument based inquiry These teachers have all gone through professional development programs and successfully implemented the approach at a high level **Embodiment in Cross-Linguistic**

Studies, 2023-09-04 The book explores the conceptualization of the heart as it is represented in 19 languages ranging from broadly studied to endangered ones Being one of the most extensively utilised body part name for figurative usages it lends itself to rich polysemy and a wide array of metaphorical and metonymical meanings The present book offers a rich selection of papers which observe the lexeme heart from diverse perspectives employing primarily the frameworks of cognitive and cultural linguistics as well as formal methodologies of lexicology and morphology The findings are unique and novel contributions to the research of body part semantics embodied cognition and metaphor analysis and in general the investigation of the interconnectedness of language culture cognition and perception about the human body **Sponge**

Cities: Emerging Approaches, Challenges and Opportunities Chris Zevenbergen, Dafang Fu, Assela Pathirana, 2018-10-18 This book is a printed edition of the Special Issue *Sponge Cities Emerging Approaches Challenges and Opportunities* that was published in *Water* **Underwater Wild** Craig Foster (Filmmaker), Ross Frylinck, 2021 Craig Foster and Ross Frylinck regularly dive together in the awe inspiring kelp forests off South Africa without wetsuits or oxygen tanks Craig had dived this way for years including alongside the octopus that inspired *My Octopus Teacher* In Ross he found a kindred spirit someone who also embraced the ancient methods of acclimating his body to frigid waters but whose eyes had not yet adjusted to the transcendent wonder Craig saw each time they dove In the heart wrenching stories that make up this unforgettable book we swim alongside Ross as he grows from skeptic to student of the underwater wild And in the revelatory
