Spring Break 2015 New York:

Media Today Joseph Turow, 2016-10-04 *Media Today* uses convergence as a lens that puts students at the center of the profound changes in the 21st century media world Through the convergence lens they learn to think critically about the role of media today and what these changes mean for their lives presently and in the future The book's media systems approach helps students to look carefully at how media content is created distributed and exhibited in the new world that the digital revolution has created From newspapers to video games and social networking to mobile platforms *Media Today* prepares students to live in the digital world of media

The Privileged Poor Anthony Abraham Jack, 2019-03-01 An NPR Favorite Book of the Year Breaks new ground on social and educational questions of great import Washington Post An essential work humane and candid that challenges and expands our understanding of the lives of contemporary college students Paul Tough author of *Helping Children Succeed* Eye opening Brings home the pain and reality of on campus poverty and puts the blame squarely on elite institutions Washington Post Jack's investigation redirects attention from the matter of access to the matter of inclusion His book challenges universities to support the diversity they indulge in advertising New Yorker The Ivy League looks different than it used to College presidents and deans of admission have opened their doors and their coffers to support a more diverse student body But is it enough just to admit these students In this bracing expos Anthony Jack shows that many students struggles continue long after they've settled in their dorms Admission they quickly learn is not the same as acceptance This powerfully argued book documents how university policies and campus culture can exacerbate preexisting inequalities and reveals why some students are harder hit than others

The Planet You Inherit Larry L. Rasmussen, 2022-11-29 For the first time ever love letters consciously written by elders of one geologic epoch to the young of another Our children's and grandchildren's generation will face a different world one affected by climate instability mass uncertainty and breathtaking extinction In fact the next generation will face the reality that human activity is changing the planet from one geological epoch to another From this vantage point two generations across two geological epochs facing a fundamentally changing planet Larry Rasmussen writes to his grandchildren As a grandfather invested in a green earth and climate justice as well as a scholar of faith based earth ethics Rasmussen bridges this gap between generations to write to the future about climate change global citizenship democracy and legacy In topics ranging from *A Viable Way of Life and Democracy* to *Where We've Come From* and *Who We Are Now* Rasmussen explores the large questions of justice meaning and faith encouraging us to speak to and look to the future generation and their future world

A Dream Defaulted Jason N. Houle, Fenaba R. Addo, 2022-08-16 *A Dream Defaulted* explores how the student loan crisis disproportionately affects Black borrowers and why rising student debt is both a cause and consequence of social inequality in the United States Jason N Houle and Fenaba R Addo offer a deft analysis of the growing financial crisis in education examining its sources and its impacts Based on more than five years of ongoing qualitative and quantitative research this incisive work illustrates how the

student loan system has not benefited all students equally The authors tell the story of how first generation college students low income students and students of color are disadvantaged in two opposing phases of the process debt accumulation and debt repayment They further demonstrate that policies intended to mitigate financial burden and prevent default have failed to assist the people who most need help Houle and Addo present these social and racial disparities within a broader context tracing how centuries of institutionalized racism have contributed to social and economic inequities perpetuating the racial wealth gap and leading to intergenerational inequality Through interviews with borrowers they illuminate the ways in which racial disparities affect who has college access how and why people take on debt and who has the ability to repay student loan debt after leaving college Recognizing that the affordability crisis cannot be solved by higher education reform alone Houle and Addo consider solutions They argue that policy must extend beyond debt reduction and financial aid to address entrenched patterns of racial inequality and racial discrimination both inside and outside institutions of higher education

Macrotask Crowdsourcing Vassillis-Javed Khan, Konstantinos Papangelis, Ioanna Lykourentzou, Panos

Markopoulos, 2019-08-06 Crowdsourcing is an emerging paradigm that promises to transform several domains creative work business work cultural cooperation etc Crowdsourcing reflects the close knit interplay between the latest computer technologies the rapidly changing work model of the 21st century and the very nature of people The interplay makes for an exciting but at the same time challenging new field to investigate under the lens of a diverse set of disciplines ranging from the technical to the social and from the theoretical to the applied Early research has focused on an aspect of crowdsourcing known as micro tasking Micro tasks are simple tasks like image annotations that anyone could perform An emerging area is how to utilize crowdsourcing to solve problems that go beyond simple tasks towards more complex ones that require collaboration and creativity In juxtaposition to micro task crowdsourcing this book investigates macro task crowdsourcing and its potential Queering the Redneck Riviera Jerry T. Watkins III, 2021-07-29 Queering the Redneck Riviera recovers the forgotten and erased history of gay men and lesbians in North Florida a region often overlooked in the story of the LGBTQ experience in the United States Jerry Watkins reveals both the challenges these men and women faced in the years following World War II and the essential role they played in making the Emerald Coast a major tourist destination In a state dedicated to selling an image of itself as a family friendly tropical paradise and in an era of increasing moral panic and repression queer people were forced to negotiate their identities and their places in society Watkins re creates queer life during this period drawing from sources including newspaper articles advertising and public relations campaigns oral history accounts government documents and interrogation transcripts from the state s Johns Committee He discovers that postwar improvements in transportation infrastructure made it easier for queer people to reach safe spaces to socialize He uncovers stories of gay and lesbian beach parties bars and friendship networks that spanned the South The book also includes rare photos from the Emma Jones Society a Pensacola based group that boldly hosted gatherings and conventions in public places

Illuminating a community that boosted Florida's emerging tourist economy and helped establish a visible LGBTQ presence in the Sunshine State Watkins offers new insights about the relationships between sexuality capitalism and conservative morality in the second half of the twentieth century *Climate Change and Sea Level Rise in South Florida* Risa Palm, Toby Bolsen, 2020-01-01 South Florida is frequently cited as the part of the United State of America as most susceptible to the devastation accompanying sea level rise Several scholarly studies have shown the negative impact of coastal location in Florida on housing values Are the residents of South Florida concerned Is susceptibility to sea level rise actually affecting the housing market in terms of demand the availability of home mortgages or house prices Are people living at particular risk from sea level rise aware of this risk and more open to new information about climate change Do they support policies and laws to mitigate the pace and extent of climate change Answers to these questions are not only of general interest but they are also key to our understanding of the human dimensions of this problem This book describes the results of a detailed survey in which respondents viewed a local map displaying flooding to their own community that would result from a Category 3 hurricane in 2033 It discusses political party identification and ideology that has an overwhelming impact in shaping views about sea level rise and climate change This book has enormous implications for the effectiveness of communicating risk information The text is important if we as a nation are to design communication strategies that will lead to broader policy to combat or mitigate this risk *Creating and Sustaining Effective K-12 School Partnerships* Ahmad R. Washington, Ramon B. Goings, Malik S. Henfield, 2020-03-01 Although teachers school counselors and administrators are all situated within educational settings tasked with supporting students educational development rarely do these professionals have sufficient opportunities to learn from and collaborate with one another before entering these schools Unfortunately many of these professionals are unaware of the primary and secondary responsibilities their peers and colleagues assume What's worse this lack of insight potentially compromises the extent to which educational leaders can forge effective partnerships that benefit students from the most alienated disenfranchised and marginalized communities e.g Black children in under resourced schools While the educational discourse has included recommendations for maximizing interactions between these educational professionals the collective voices of teachers school counselors and administrators in regards to these issues has not been adequately examined Thus this book is a compilation of manuscripts and studies that explore partnerships and strategies educators and educational leaders use to produce positive socio educational outcomes for Black students in various contexts *Creating and Sustaining Effective K 12 School Partnerships Firsthand Accounts of Promising Practices* is unique because it illuminates examples of effective school community partnerships that foster positive student outcomes *Creating and Sustaining Effective K 12 School Partnerships Firsthand Accounts of Promising Practices* is intended as a practical text for committed educational leaders at different professional points e.g practicing teachers pre service school counselors and teachers who are eager to transform the current educational trajectory of Black children through

Applicative Justice Naomi Zack, 2016-03-04 Naomi Zack pioneers a new theory of justice starting from a correction of current injustices While the present justice paradigm in political philosophy and related fields begins from John Rawls's 1970 Theory of Justice Zack insists that what people in reality care about is not justice as an ideal but injustice as a correctable ill For a way to describe real injustice and the society in which it occurs Zack resurrects Arthur Bentley's key insight that government and law or political life is a constant process of contending interest groups throughout society Bentley's main idea allows for a resolution of the contradiction between formal legal equality for U S minorities and post civil rights practical inequality Just law and unjust practice co exist as a fact of political life The correction of injustice in reality requires applicative justice in a comparison between those who are treated unjustly with those who are treated justly and the design of effective measures to equalize such treatment Zack's theory of applicative justice offers a revolutionary reorientation of society's pursuit of justice seeking to undo injustice in a
