Spun Tales :

Spinning Tales Brey Willows, 2019-03-12 Maggie McShay wants a little magic in her life. Something more than the drab existence of going to work and coming home to a cat that barely tolerates her. When she spontaneously replies to a want ad asking for someone to take care of a fairy tale cottage, it turns out magic wasn't as far away as she thought. Maggie discovers she wasn't who she thought she was: either a recalcitrant fairy tale shepherd and ladies' woman. Kody Wilk shows Maggie a world she knew nothing about: a world they need to save before the villains of the world's fairy tales take over New York City. It's up to Maggie, her grumpy shape-shifting cat, a dwarf hell-bent on finding romance, and Kody to set the fairy tale world to rights. The big bad wolf has nothing on Maggie McShay.

Interactive Storytelling Ido A. Iurgel, Nelson Zagalo, Paolo Petta, 2009-11-21 The rich programme of ICIDS 2009 comprising invited talks, technical presentations and posters, demonstrations and co-located post-conference workshops clearly underscores the event's status as premier international meeting in the domain. It thereby confirms the decision taken by the Constituting Committee of the conference series to take the step forward out of the national cocoons of its precursors ICVS and TIDSE and towards an itinerant platform reflecting its global constituency. This move reflects the desire and the will to take on the challenge to stay on the lookout, critically reflect upon and integrate views and ideas, findings and experiences, and to promote interdisciplinary exchange while ensuring overall coherence and maintaining a sense of direction. This is a significant enterprise. The challenges sought are multifarious and must be addressed consistently at all levels. The desire to involve all research communities and stakeholders must be matched by acknowledging the differences in established practices and by providing suitable means of guidance and introduction, exposition and direct interaction at the event itself and of lasting and increasingly living documentation of which the present proceedings are but an important part.

The Reception of Grimms' Fairy Tales Donald Haase, 1993 The essays address the reception of the Grimms' texts by their readers: the dynamics between Grimms' collection and its earliest audiences and aspects of the literary, philosophical, creative and oral reception of the tales illuminating how writers, philosophers, artists and storytellers have responded to, reacted to and revised the stories, thus shedding light on the ways in which past and contemporary transmitters of culture have understood and passed on the Grimms' tales.

BOOK JACKET Fairy Tales Reimagined Susan Redington Bobby, 2014-01-10 Although readers and filmgoers are strongly familiar with Disney's sanitized child-centric fairy tales, they are quick to catch on to reworkings of classic tales into a contemporary context. The rise in such retellings seems to indicate that readers are hungry for a new narrative one that harkens back to the old yet moves the storyline forward to reflect conditions of the modern world. No mere escapist fantasies, the reimagined fairy tales of the late 20th and early 21st centuries reflect social, political and cultural truths. Sixteen essays consider fairy tales recreated through short stories, novels, poetry and the graphic novel from both best-selling and lesser-known writers applying a variety of perspectives including postmodernism, psychoanalysis, Marxism, feminism, queer

theory and gender studies Along with the classic fairy tales fiction from writers such as Neil Gaiman Stardust and Gregory Macquire Wicked is covered
