corresponding increases in the quantities of hazardous materials in process storage or transport Plants have become larger
and are often situated in or close to densely populated areas Increased hazard of loss of life or property is continually
highlighted with incidents such as Flixborough Bhopal Chernobyl Three Mile Island the Phillips 66 incident and Piper Alpha
to name but a few The field of Loss Prevention is and continues to be of supreme importance to countless companies
municipalities and governments around the world because of the trend for processing plants to become larger and often be
situated in or close to densely populated areas thus increasing the hazard of loss of life or property This book is a detailed
guidebook to defending against these and many other hazards It could without exaggeration be referred to as the bible for
the process industries This is THE standard reference work for chemical and process engineering safety professionals For
years it has been the most complete collection of information on the theory practice design elements equipment regulations
and laws covering the field of process safety An entire library of alternative books and cross referencing systems would be
needed to replace or improve upon it but everything of importance to safety professionals engineers and managers can be
found in this all encompassing reference instead Frank Lees world renowned work has been fully revised and expanded by a
