Mobile Human-Computer Interaction - Mobile HCI 2004 Stephen Brewster, Mark Dunlop, 2004-09-01

MobileHCI is a forum for academics and practitioners to discuss the challenges and potential solutions for effective human computer interaction with mobile systems and services. It covers the design, evaluation and application of techniques and approaches for all mobile computing devices and services. MobileHCI 2004 was the sixth in the series of conferences that was started at Glasgow University in 1998 by Chris Johnson. We previously chaired the conference in 1999 in Edinburgh as part of INTERACT 1999 and in 2001 in Lille as part of IHM HCI 2001. The last two years saw the conference move to Italy under the chairmanship of Fabio Paternò in Pisa then under Luca Chittaro in Udine. In 2005 the conference will move to Austria to be chaired by Manfred Tscheligi. Each year the conference has its own website hosted by the conference chair; however the address www.mobilehci.org will always point to the next or current conference. The number of submissions has increased every year. This year we received 79 full papers, 63 were received last year from which we accepted the best 25. We had 81 short papers and posters submitted, 59 last year and accepted 20 of these as short papers and 22 as posters. We received 9 workshop, 4 tutorial and 2 panel proposals from which 5, 2 and 2 respectively were accepted.

Artificial Intelligence in Theory and Practice II Max Bramer, 2010-08-17

The papers in this volume comprise the refereed proceedings of the conference Artificial Intelligence in Theory and Practice IFIP AI 2008 which formed part of the 20th World Computer Congress of IFIP the International Federation for Information Processing WCC 2008 in Milan, Italy, in September 2008. The conference is organised by the IFIP Technical Committee on Artificial Intelligence Technical Committee 12 and its Working Group 12.5 Artificial Intelligence Applications. All papers were reviewed by at least two members of our Program Committee. Final decisions were made by the Executive Program Committee which comprised John Debenham, University of Technology Sydney, Australia; Ilias Maglogiannis, University of Aegean, Samos, Greece; Eunika Mercier Laurent, KIM, France; and myself. The best papers were selected for the conference either as long papers (maximum 10 pages) or as short papers (maximum 5 pages) and are included in this volume. The international nature of IFIP is amply reflected in the large number of countries represented here. The conference also featured invited talks by Prof Nikola Kasabov, Auckland University of Technology, New Zealand, and Prof Lorenza Saitta, University of Piemonte Orientale, Italy. I should like to thank the conference chair John Debenham for all his efforts and the members of our program committee for reviewing papers to a very tight deadline.
