You Talk, I'll Listen Nancy Brinkley Weems, 2014-11-14 So often people pray and wonder if their prayers or even thoughts have been lost to the atmosphere. Nancy Brinkley Weems came to a relationship with Christ as an adult with many questions. Not wanting man's answers, she sought out God's voice. When a friend read a God conversation she was taken aback that someone would freely chat with God and hear from Him directly. In *You Talk, I'll Listen*, Nancy Brinkley Weems will use her teaching skills and knack for bringing new information in at a level that anyone can grasp. Sharing her battles of spiritual growth through growing up and growing old, chatting with God about the trials in life including losing her husband of thirty-eight years, and hearing God's voice are some of the themes of this book. God spoke us into existence and is still speaking to us now. I have to say I was amazed with this book. I found it amazing that you so honestly bared the truth of your soul and your relationship with God so that others could find theirs. Angela Lowe, New Smyrna Beach, Florida. God uses you to speak to others and he is allowing that to happen in a very meaningful way. Your words, which I believe are inspired by God, have provided insight and comfort during a tragic time in my life. Lauren Canary, Physician's Assistant, Wauchula, Florida.

Pathway to Intimacy Carol Welch, 2008-02 Does your marriage need a tune-up? Are the pressures of life pulling you apart? Have you gotten so busy with your lives that you have forgotten about your dreams? What you need is a little bit of faith and a great big change of perspective. What you need is a fresh word from God. Most of you believe Psalms 119:105: Thy word is a lamp unto my feet and a light unto my path. But all too often the reality is that we don't really understand God's will and we don't know his plan for our marriage. If I have hit the nail on the head, take courage, take hope, and take this book home with you. In it, you will discover the pathway of God's Living Word. *Pathway to Intimacy* will teach you how to seek God's will for your marriage, how to find answers in God's Word, how to empower your relationship with renewed love, and how to intertwine God in your marriage. My God can change your perspective and empower you to change your circumstances. My God has a word for your marriage, and once you hear that word, you will never be the same again.

Your Library Is the Answer Christina T. Russo, Cathy Swan, 2015-01-22 Today's tech-savvy and digitally connected

students present a new challenge for today's school librarians. This book offers the 21st century tools and know how necessary for educators to appeal to and challenge students to learn and to want to learn. What are the best ways to motivate students to become engaged and develop a passion for learning? Can appealing to their desire for socialization and constant communication attributes of their lives outside of education via the integration of cutting edge technologies and new media in the library or classroom serve to ignite creativity, curiosity and critical thinking? This book shows how you can make use of non traditional tools such as popular social networks, collaborative technologies and cloud computing to teach information and communications technologies integrated with the school curriculum to improve student learning and demonstrates how these same technologies can help you measure skills and mastery learning. The book provides an easy to follow blueprint for using collaborative techniques, innovation and teaching for creativity to achieve the new learning paradigm of self directed learning such as flipping the classroom or library. Readers of this book will find concrete step by step examples of proven lesson plans, collaborative models and time saving strategies for the successful integration of American Association of School Librarians AASL standards. The authors, both award winning teachers, explain the quantitatively and qualitatively measurable educational value of using these technologies for core curricular and information and communications technologies instruction, showing that they both enhance student learning outcomes and provide data for measuring their impact on learning.

Music Across the Senses Jody L. Kerchner, 2014. *Music Across the Senses* shows how music educators can facilitate PK-12 students' listening skills using multisensory means: mapping movement and verbal descriptions in general music and performance ensemble classes.

The Latina/o Pathway to the Ph.D. Jeanett Castellanos, Alberta M. Gloria, Mark Kamimura, 2023-07-03. The Latina/o population constitutes the largest racial and ethnic minority group in the U.S. and is disproportionately underrepresented in college and in graduate programs. This is the first book specifically to engage with the absence of Latinas/os in doctoral studies. It proposes educational and administrative strategies to open up the pipeline and institutional practices to ensure access, support models and training for Latinas/os aspiring to the Ph.D. The undereducation of Latina/o youth begins early. Given that by twelfth grade half will stop out or be pushed out of high school and only seven percent will complete a college degree, it is not surprising so few enter graduate studies. When Latina/o students do enter higher education, few attend those colleges or universities that are gateways to graduate degrees. Regardless of the type of higher education institution they attend, Latinas/os often encounter social and academic isolation, unaffordable costs and lack of support. This historic underrepresentation has created a vicious cycle of limited social and economic mobility. There is a paucity of the Latina/o faculty and leaders whom research shows are essential for changing campus climate and influencing institutions to adapt to the needs of a changing student body. As a result, Latina/o graduate students often have few role models, advocates or mentors and limited support for their research agendas. By reviewing the pipeline from kindergarten through university, this book provides the needed data and insights to effect change for policy makers.
