Study of Prehistoric Aesthetic Consciousness of the Chinese Nation Wangheng Chen, 2025-07-29 This book explores how prehistoric aesthetic consciousness of the Chinese nation evolved from animality and barbarism how it was epitomized in prehistoric artifacts and most importantly how this aesthetic consciousness has exerted an ever lasting influence upon the Chinese mind and culture by examining prehistoric archaeological discoveries particularly pottery objects jade ware and rock paintings from prehistoric cultures and by studying ancient Chinese historical and literary documents This is the first academic effort to trace the very beginning of the aesthetic consciousness of the Chinese nation back to prehistoric times Its strength lies in the comprehensive and detailed examination of all the major prehistoric cultures and artifacts as well as in its insights into the relationship between prehistoric consciousness and the Chinese mind and culture This book benefits graduate students and researchers who are interested in Chinese prehistoric culture and Chinese history of aesthetics

The History of Chinese Ceramics Lili Fang, 2023-05-23 Adopting the perspective of anthropology of art and combining it with global academic insights this book helps the readers to recognize that history is in great measure the record of human activity which spreads from the local to the regional from the regional to the global and from the global to the universal Readers will

learn that China was not only the first country to create porcelain but also the first to export it to the world both the products and its techniques Therefore the history of Chinese ceramics reflects the history of Chinese foreign trade on the one hand and depicts the expansion of Chinese ceramic techniques and cultures on the other In addition to ceramics types molds decoration and techniques the book analyzes the spiritual impacts and aesthetic conceptions embodied in the utensils of daily use by the Chinese literati Therefore it reaches the conclusion that ideological systems and not technological systems are what bring about social revolutions In addition the book is richly illustrated with pictures of earthenware and finely glazed pieces from later periods
