Flying Over the Pigpen D. Tieman, 2015-09-08 Growing up on a pork farm it seemed unlikely that Doug Tieman would reach his goal of becoming a CEO by the time he was 40 but he did By applying the lessons that he shares in this book and by working hard he succeeded After 25 years of working in the addictions field Tieman entered his own personal recovery That experience gave him an even greater understanding of the stories he had heard from others in recovery who shared what they went through and the efforts they made to pursue a life of abstinence He also realized that lessons that apply to life career achievement and recovery aren't all that different from one another Tieman believes that one of the issues many people face is an inability to conceptualize and take methodical steps towards actualizing career goals He also believes that if more people in recovery could do that it would bring them to a new level of success that ultimately might benefit the entire addictions field And that's exactly what this book succeeds in doing for its readers *Bank\$ and Union\$* James B.

Search Committees Christopher D. Lee, 2023-07-03 Finding the right candidate for administrative professional and faculty positions is one of the most important tasks that any institution or enterprise undertakes. However, few higher education professionals receive training on the search committee process but are expected to serve on or lead committees. This guide furthermore provides advanced diversity selection techniques that are not commonly found in many resources inside or outside of higher education and that have become institutional priorities in the context of demographic changes and globalization that require that higher education serve more diverse populations and compete internationally. This guide covers the complete cycle of hiring, starting with defining the position and forming and briefing the committee through cultivating a rich and diverse pool of candidates and screening and evaluating candidates to making the selection successfully, completing the search successfully, and welcoming colleagues to campus. This volume includes over 30 templates that are designed to be copied and used as training handouts or as handy reference and resource materials that provide guidance at various stages of the search process. The over two dozen vignettes included can be used as training case studies or as expert advice that illuminates key concepts that are helpful with improving the quality of the search process. The guide includes: 1. An expert step-by-step search model. 2. Dozens of templates, samples, tools, plus a bank of interview questions. 3. Diversity recruitment and selection protocols and techniques. 4. Resource guide with advice, case studies, examples, and training materials. It is also a resource that human resources professionals can use to train, equip, and support search committees. A complementary website at www.SearchCommittees.com offers additional resources.
