

Back to School Summer Welcome Letter! Get your new students excited for the school year to begin!

Back To School!

Hello!

I hope you are having a wonderful summer with your family! You are probably having fun riding your bike, swimming, or playing games. I had fun, too. Mr. Post and I did a lot of traveling together. It was a terrific summer!

Now I have been back at school getting our classroom ready! I thought I would write you a letter to tell you how excited I am for the first day of school. I can't wait to see you! We are going to have so much fun this year in first grade. We will be sharing many big books, stories, poems and songs! We will have fun writing, too. We will be playing some excellent math games! We will also learn new things in science and social studies. Computer time will be awesome, too! You will see some of your old friends in our class, but you will make new friends, too!

Everyone received a supply list last June. If you have your supplies, you may bring them in a little at a time the first week of school or all at once, whichever is easier for you.

If you or your family would like to write me a letter, I would love to learn about anything that you'd like me to know about you. You can mail it to me at Smith School, or bring it with you during the first week of school.

When you come to school on the first day, I will be right outside to meet you and show you where to go. We are going to have a great year! We will be meeting new people, learning new names, making new friends and helping each other. I am looking forward to seeing you! I hope you enjoy these last days of vacation! I will see you soon. Bring your smile!

Your teacher,
Mrs. Post

Cameron White, 2014-02-05 What is community How important is community in the 21st century Where might the idea of community fit in education and schooling teaching and learning These are the questions and themes embedded in this book

The general critique is that community is an add on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today Our focus is to provide critical investigations as to the possibility of community and that we need community now more than ever The concept of community education brings many ideas and issues to mind Related themes include place based field based environmental service learning and outdoor education Each has its own more narrow focus with community education perhaps an umbrella term than encompasses them all Nevertheless the suggestion here is that instead of community education serving as an extension or add on to traditional approaches it should be the focus of all education What is often missing in teaching and learning are contexts and connections that make education meaningful Community education engages participants in problem and issues based approaches to the local community thereby facilitating that local to global link Instead of compartmentalized subjects integrated approaches use what students and the community know or understand to develop further questions solutions or even problems Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems It enables the community to become the classroom thus ensuring a more long term connection to active rather than passive endeavors as citizens

Assessing with Respect Starr Sackstein, 2021-03-24 In this timely and thoughtful call to action author and educator Starr Sackstein examines the critical intersection between assessment and social and emotional learning SEL particularly as it affects students of color and other marginalized groups The book addresses the five SEL competencies identified by the Collaborative for Academic Social and Emotional Learning CASEL self awareness self management social awareness relationship skills and responsible decision making and explains how teaching students to develop their abilities in these areas can help them improve their learning and assessment experiences Sackstein also raises important considerations for educators urging them to Examine their implicit biases to improve their relationships with students Deepen their understanding of the impact of grades and assessments on students self image and their ability to reach their full potential as learners Develop personalized assessment systems that ensure an accurate fair and equitable portrayal of what students know and can do In addition to presenting the relevant research Sackstein draws from personal experience and the reflections of students teachers and administrators to present a compelling case for approaching assessment through the SEL lens Educators at all levels who have witnessed the devastating effects that testing can have on students beliefs in themselves as learners will find *Assessing with Respect* to be an invaluable guide to ensuring better outcomes and better emotional health for all students Countdown to the Principalship Tom Bellamy, Jackie Provenzano, Anne O'
