Sid Ramin and Irwin Kostal reveal details of the orchestration process and the extent to which Bernstein was involved in this Simeone's commentary considers musical characteristics and compositional techniques used to mirror the drama for example the various uses of the tritone motivic development the use and reinvention of Broadway and other conventions the creation of dramatic continuity in the score through the use of motifs and other devices the unusual degree of dissonance and rhythmic complexity at least for the time and the integration of Latin American dance forms Mambo Huapango and so on Simeone also considers the reception of West Side Story in the contemporary press The stir the show caused included the response that it was the angular edgy score that made it a remarkable achievement Not all reviews were uncritical Finally the book looks in detail at the making of the original Broadway cast recording made in just one day included on the accompanying downloadable resources [Journal of Human Services Abstracts](#) ,1984 **The Principal's**
