British and Irish Emigrants and Exiles in Europe, 1603-1688 David Worthington, 2010-01-15 This book comprises the first full length comparison of Scottish Irish English and Welsh migration within Europe in the early modern period Divided into four sections Immigrants and Civilian Life Diplomats and Travellers Protestants and Patrons and Catholics at Home and Abroad it offers a new perspective on several themes Contributors elucidate networks of traders soldiers as well as scholars and religious figures Material regarding patterns of residence sometimes of the nature of an enclave sometimes not places of worship choice of marital partners and cases of return migration is presented the results demonstrating clearly the fruitfulness of pursuing a comparative approach to seventeenth century British and Irish history Contributors are Waldemar Kowalski Peter Davidson Douglas Catterall Steve Murdoch Ciaran O Scea amon Cios in Igor P rez Tostado Kathrin Zickermann Barry Robertson Siobhan Talbott Polona Vidmar David J B Trim Tom McNally Thomas O Connor and Caroline Bowden Philosophical Sovietology Helmut Dahm, J.E. Blakeley, George L. Kline, 2012-12-06 On February 24 25 1956 in a closed session of the 20th Congress of the Communist Party of the Soviet Union Nikita S Khrushchev made his now famous speech on the crimes of the Stalin era That speech marked a break with the past and it marked the end of what J M Bochenski dubbed the dead period of Soviet philosophy Soviet philosophy changed abruptly after 1956 especially in the area of dialectical materialism Yet most philosophers in the West neither noticed nor cared For them the resurrection of Soviet philosophy even if believable was of little interest The reasons for the lack of belief and interest were multiple Soviet philosophy had been dull for so long that subtle differences made little difference The Cold War was in a frigid period and reinforced the attitude of avoiding anything Soviet Phenomenology and existentialism were booming in Europe and analytic philosophy was king on the Anglo American philosophical scene Moreover not many philosophers in the West knew or could read Russian or were motivated to learn it to be able to read Soviet philosophical works The launching of Sputnik awakened the West from its self complacent slumbers Academic interest in the Soviet Union grew Weather Modification Georg Breuer, 1980-02-14 **Studies in Soviet Thought** J.M. Bochenski, J.E. Blakeley, 2012-12-06 Early in 1958 a number of research projects on Soviet philosophy were started at the Institute of East European Studies at the University of Fribourg Switzerland under the direction of the undersigned At present they are all completed or nearly so and their results are described in 18 different volumes In spite of the fact that all of them have been already published or soon will be mostly in German it has been thought worthwhile to present their main conclusions in the form of short English reports This book contains in the main these reports Only the two programmatic papers my own and that of Dr Buchholz and the study of Dr Dahm are not direct results of the above mentioned projects But it will be clear to everyone that they too are closely connected with the subject envisaged and are written from a similar point of view It will perhaps be convenient to briefly formulate this standpoint All the writings included here are concerned with recent i e mainly post Stalinist developments in

Soviet philosophy where Soviet is taken in the wide meaning of the word covering also Marxism Leninism in Communist countries other than the Soviet Union All the authors started with the assumption that there are interesting aspects to these more recent developments There was also a common assumption that only specialized work on first hand sources can be of relevance in this field

Alison More,2018 Any

visitor to Belgium or the Netherlands is immediately struck by the number of convents and beguinages begijnhoven in both major cities and small towns Their number and location in urban centres suggests that the women who inhabited them once held a prominent role Despite leaving a visible mark on cities in Europe much of the story of these women known variously as beguines tertiaries klopjes recluses and anchoresses remains to be told Instead of aspiring to live as traditional religious they transcended normative assumptions about religion and gender and had a very real impact on their religious and secular worlds The sources for their tale are often fragmentary and difficult to interpret However careful scrutiny allows their voices to be heard Drawing on an array of sources including religious rules sermons hagiographic vitae and raptorial Fictive Orders and Feminine Religious Identities traces the story of pious laywomen between the thirteenth and sixteenth centuries It both emphasizes the innovative roles of women who transcended established forms of institutional religious life and reveals the ways in which historiographical habits have obscured the dynamic and fluid nature of their histories By highlighting the development of irregular and extraregular communities and tracing the threads of monasticisation that wove their way around pious laywomen this book draws attention to the vibrant and dynamic culture of feminine lay piety that persisted from the later middle ages onwards

Dawkins brought us his engaging memoir of the first 35 years of his life from early childhood in Africa to publication of *The Selfish Gene* in 1976 when he shot to fame as one of the most exciting new scientists of his generation. In *Brief Candle in the Dark* he continues his autobiography following the threads that have run through the second half of his life so far and homing in on the key individuals, institutions and ideas that inspired and motivated him. He paints a vivid picture coloured with wit, anecdote and digression of the twenty-five postgraduate years he spent teaching at Oxford. He pays affectionate tribute to past colleagues and students, recalling with characteristic wry humour the idiosyncrasies of an establishment steeped in ancient tradition and arcane ritual while also recording his respect for the profound commitment to learning and discovery that lies at its core. He invites us to share the life of a travelling scientist from fieldwork on the Panama Canal to conferences of stratospheric eminence in exotic locations in the company of some of the most prominent and some of the most eccentric of the world's scientific luminaries. And he describes his experiences with his many publishers, television producers, interviewers and partners in debate, not least in the heady period when, after publication of *The God Delusion* in 2006, he is dubbed the world's most outspoken and controversial atheist. Most important of all, for the first time, he reviews with fresh and stimulating insights the evolving narrative of his ideas about science over the course of his highly distinguished career as thinker, teacher and writer. In *Brief Candle in the Dark* we are invited to enter with him a constantly stimulating world of discovery and to meet a fascinating cast of exceptional characters described by the talented pen of one of the most exceptional of them all.
