## **Whale Rider Study Guide Film Education:**

*Teaching, Learning, and Schooling in Film* Daniel P. Liston, Ian Renga, 2014-12-05 Films about education provide many of the most popular interpretations of what teaching and learning mean in schools. An analysis of this medium reveals much about the historical, cultural, political, and philosophical dimensions of education. Timely and engaging, this book fills a gap for scholarly and informed public commentary on the portrayal of education in film, offering a wide range of conceptual and interpretive perspectives. *Teaching, Learning, and Schooling in Film* explores several key questions, including: What does it mean to be a good teacher? How do these good teachers instruct? When is and what makes teaching complex? What constitutes learning? Do educational reforms work? The book's interdisciplinary group of contributors answers these important questions in essays highlighting Hollywood, independent, and documentary films. Prospective and practicing teachers will engage with the thought-provoking educational issues raised in this book and gain insight into the complexities of teaching and learning portrayed in film.

**Ageism in Youth Studies** Gayle Kimball, 2017-05-11 Ageism is prevalent in a great deal of current scholarship in the social sciences as scholars fault youth for being delinquent or politically apathetic. Researchers ignore young people's actual voices despite their leadership in recent global uprisings, some of which unseated entrenched dictators. Neoliberalism must be exposed in its focus on youth subcultures and styles rather than economic barriers caused by growing inequality and rising youth unemployment rates. *Ageism in Youth Studies* also discusses the debate about Generation We or Me and if Millennials are narcissistic. Resources about global youth studies are included along with the results of the author's surveys and interviews with over 4,000 young people from 88 countries.

*The Library Screen Scene* Renee Hobbs, Liz Deslauriers, Pam Steager, 2019 In the past two decades, several U.S. states have explored ways to mainstream media literacy in school curriculum. However, one of the best and most accessible places to learn this necessary skill has not been the traditional classroom but rather the library. In an increasing number of schools, public and academic libraries shared media experiences such as film screening, learning to computer animate, and video editing promote community and a sense of civic engagement. *The Library Screen Scene* reveals five core practices used by librarians who work with film and media viewing: creating, learning, collecting, and connecting. With examples from more than 170 libraries throughout the United States, the book shows how film and media literacy education programs, library services, and media collections teach patrons to critically analyze moving image media, uniting generations, cultures, and communities in the process.

*From Here to Hogwarts* Christopher E. Bell, 2015-11-12 The social relations, societal structures, and existential conundrums in the world of Harry Potter novels reflect our own. When the authoritarianism of Hogwarts falls upon Harry, it is an echo of disciplinary practices in real-world high schools. The economic inequities of the wizarding world mirror those of modern societies. The art, literature, and mass media of wizard society reveal our deep-rooted fears. Harry's world is our world. This collection presents new essays by contributors across a range of disciplines, bringing fresh perspectives on one of the most influential texts in modern
