The Geography of Central Asia Igor Jelen, Angelija Bučienė, Francesco Chiavon, Tommaso Silvestri, Katie Louise Forrest, 2021-03-01 This book provides a profound geographical description and analysis of Central Asia. The authors take a synthetic approach in a period of critical transformation in the post soviet time. Natural processes are described at a systemic scale focusing on ecological impacts and consequences and contemporary human adaptations and organization. It also discusses in which ways the human organizations try to apply solutions for their needs such as security, territorial management and resources renewability, material and functional needs, identity, elaborations, culture and communication. The *Geography of Central Asia* appeals to scientists and students of regional geography and interested academics from other areas such as social, political, economic and environmental studies within the context of Central Asia. A Geo-Legal Approach to the English Sharia Courts Anna Marotta, 2021-12-20 A Geo Legal Approach to the English Sharia Courts: Cases and Conflicts adopts a new methodological perspective that combines Comparative Law with Geopolitics to understand the phenomenon of the English sharia courts. This term is used as a geopolitical representation of specific Islamic ADR institutions. The geo legal analysis illustrates the competition of the legal systems involved and brings you in the middle of the related conflict where official and unofficial legal rules are used by various actors to defend their ideas of Law and implement their strategies. Accordingly, the geo legal operational analysis helps assess the possible changes occurring in the relationship between the legal systems and their substratum of values. Funding for the research associated with this book was provided by the University of Campania Luigi Vanvitelli, Dept of Political Science and by the Italian Ministry of University and Research through the National Project PRIN 2017 n. 20174EH2MR on International Migrations, State Sovereignty, Human Rights, open legal issues, directed by Prof. Angela Di Stasi and Prof. Ida Caracciolo.

*Geographers of the Ancient Greek World: Volume 2* D. Graham J. Shipley, 2024-04-18 Ancient Greek geographical writing is represented not just by the surviving works of the well known authors Strabo, Pausanias and Ptolemy but also by many other texts dating from the Archaic to the Late Antique period. Most of these texts are however hard for non specialists to find and many have never been translated into English. This volume the work of an international team of experts presents the most important thirty six texts in new accurate translations. In addition there are explanatory notes and authoritative introductions to each text which offer a new understanding of the individual writings and demonstrate their importance no longer marginal but in the mainstream of Greek literature and science. The book includes twenty eight newly drawn maps, images of the medieval manuscripts in which most of these works survive and a full Introduction providing a comprehensive survey of the field of Greek and Roman geography.

McMahon, Kathleen P. Costello-Sullivan, 2024-07-23 This volume gathers over 40 world class scholars to explore the dynamics that have shaped the Irish experience in America from the seventeenth to the twenty first centuries From the early 1600s to the present over 10 million Irish people emigrated to various points around the globe Of them more than six million settled in what we now call the United States of America Some were emigrants some were exiles and some were refugees but they all brought with them habits ideas and beliefs from Ireland which played a role in shaping their new home Organized chronologically the chapters in this volume offer a cogent blend of historical perspectives from the pens of some of the world's leading scholars Each section explores multiple themes including gender race identity class work religion and politics This book also offers essays that examine the literary and or artistic production of each era These studies investigate not only how Irish America saw itself or in turn was seen but also how the historical moment influenced cultural representation It demonstrates the ways in which Irish Americans have connected with other groups such as African Americans and Native Americans and sets Irish America in the context of the global Irish diaspora This book will be of value to undergraduate and graduate students as well as instructors and scholars interested in American History Immigration History Irish Studies and Ethnic Studies more broadly *International Law and the Reconceptualization of Territorial Boundaries* Joshua Castellino, 2024-10-28 This book critically analyzes the state based regime of international law eliciting its colonial and decolonial origins and proposing a new sub regional basis for dealing with contemporary global challenges Since 1648 public international law has taken many steps to maintain peace and establish a just order The State is deemed central to each of these efforts Yet modern challenges such as environmental mitigation mass migration and the need to stimulate economic growth overwhelm the State Could a regional approach to these questions achieved in conjunction with strong sub national local governance establish a more effective framework for systemic change Drawing on a history of colonization and decolonization while scrutinizing decisions made about the imposition of the State on the basis of colonial boundaries this multidisciplinary work analyses why current challenges are unlikely to be adequately addressed through existing governance structures In response it advocates for a sub regional transnational approach drawing on analyses of pre colonial shared histories and contemporary population ethnographies unfettered by hegemonic boundary drawing The book argues that collaboration across such frontiers in the face of climate and other challenges may offer more feasible approaches to the

pursuit of peace than the unquestioned maintenance of state based structures of inherited privilege This book will appeal to scholars and others with interests in international law international relations and international politics as well as in the history and politics of colonialism
