Tourism in Northern Ireland and its economic impact and benefits Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee, 2007-03-15 The Committee's report examines the nature of tourism in Northern Ireland its impact on and importance for the overall economy and the effectiveness of measures taken by Government and other relevant agencies to develop promote and support the marketing of Northern Ireland as a tourist destination The Committee's recommendations are addressed to the Northern Ireland Office which took back responsibility for tourism in Northern Ireland when the power sharing executive was suspended in October 2002 but if a power sharing executive is re established then responsibility for tourism will revert to the restored Executive and accordingly responsibility for scrutiny of this policy area would revert to the Committees of a restored Assembly The Committee's report makes 27 recommendations to help Northern Ireland maximise its tourist potential and concludes that if

government recognises the enormous economic impact of tourism and if private enterprise in co operation with statutory bodies can develop this recognition into a coherent strategy there is no reason why the success of tourism in the Republic of Ireland should not be replicated in Northern Ireland to the advantage of the whole island of Ireland and with Northern Ireland itself enjoying an equivalent status to Scotland and Wales as a UK tourist destination **Richard G. Kleindienst [and] Louis Patrick Gray III.** United States. Congress. Senate. Committee on the Judiciary,1972 *The Influence of Technical Cooperation on Reducing Tensions in the Middle East* Robert Berger Abel,1997 This book describes the events leading up to a cooperative program of marine technology between Egypt and Israel and how the program was actually conducted It then attempts the effect of the cooperation on relations between the countries themselves The program in marine technology which was the AID Program trailbreaker and which set the standard for the rest of the programs has encompassed projects in lakes management shore processes and erosion control aquaculture and fisheries climate prediction seafood quality waste water recycling and primary productivity of the Mediterranean Sea Cooperation was initiated by forming a project between an Egyptian Institution and an American Institution Dr Abel then introduced the same project to an Israeli Institution Through a series of meetings Dr Abel brought about a true trilateral effort His next step was to back out the American Institution leaving the Israelis and Egyptians in true bilateral cooperative projects At the close of the period described by the book Jordan is being introduced to the program **Blessed with Tourists** Thomas S. Bremer,2006-03-08 More than a million tourists visit religious landmarks in San Antonio Texas each year observing and sometimes participating in religious activities there The San Antonio Missions National Historical Park managed by the National Park Service in cooperation with the Catholic Church is one of hundreds of religious places in America and around the world where tourists have become a familiar presence In *Blessed with Tourists* Thomas S Bremer explores the intersection of tourism and commerce with religion in American using the missions and other San Antonio sites as prime examples Bremer recounts the history of San Antonio from its Native American roots to its development as a religious center with the growth of the Spanish colonial missions to the modern transformation of San Antonio into a tourist destination Employing both ethnographic and historical approaches Bremer examines the concepts of place identity aesthetics and commercialization demonstrating numerous ways that modern market forces affect religious communities By identifying important connections between religious and touristic practices Bremer establishes San Antonio as a distinctive source for anyone seeking to understand the interplay between the religious and the secular the traditional and the modern **Tourism Development in India** A. War Tourism Bertram M. Gordon, 2018-11-15 As German troops entered Paris following their victory in June 1940 the American journalist William L Shirer observed that they carried cameras and behaved as na ve tourists One of the first things Hitler did after his victory was to tour occupied Paris where he was famously photographed in front of the Eiffel Tower Focusing on tourism by German personnel military and civil and French civilians during the war as well as war related memory tourism since War Tourism addresses the fundamental linkages between the two As Bertram M Gordon shows Germans toured occupied France by the thousands in groups organized by their army and guided by suggestions in magazines such as *Der Deutsche Wegleiter fr Paris* The German Guide for Paris Despite the hardships imposed by war and occupation many French civilians continued to take holidays Facilitated by the Popular Front legislation of 1936 this solidified the practice of workers vacations leading to a postwar surge in tourism After the end of the war the phenomenon of memory tourism transformed sites such as the Maginot Line fortresses The influx of tourists with links either directly or indirectly to the war took hold and continues to play a significant economic role in Normandy and elsewhere As France moved from wartime to a postwar era of reconciliation and European Union memory tourism has held strong and exerts significant influence across the country

Cruise Tourism in Polar Regions Michael Lück, Patrick Timothy Maher, Emma J. Stewart, 2010 Cruises are the primary form of tourism in the Polar Regions and cruise ship tourism in both the Arctic and Antarctic is expanding rapidly The industry has moved beyond its infancy and is now entering a maturing phase with increased numbers and types of vessels more demanding routes and more regular and predictable patterns of activity The increase in cruise activities and the associated risks of accidents as well as the potential and actual impacts of the large numbers of tourists in the polar regions bring with it management challenges for sustainable use of these regions This book discusses critically the issues around environmental and social sustainability of the cruise industry in Polar Regions Authors from Canada USA Europe Australia and New Zealand are experts in their respective fields and take an innovative critical and at times controversial approach to the subject

Nord,2020-10-30 This book investigates the multifaceted nature of change in today's Nordic Arctic and the necessary research and policy development required to address the challenges and opportunities currently faced by this region It focuses its attention on the recent efforts of the Nordic community to create specialized Centers of Excellence in Arctic Research in order to facilitate this process of scientific inquiry and policy articulation The volume seeks to describe both the steps that lead to this decision and

the manner in which this undertaking has evolved. The work highlights the research efforts of the four Centers and their investigations of a variety of issues including those related to ecosystem and wildlife management, the revitalization of resource dependent communities, the emergence of new climate born diseases and the development of adequate modeling techniques to assist northern communities in their efforts at adaptation and resilience building. Major discoveries and insights arising from these and other efforts are detailed and possible policy implications considered. The book also focuses attention on the challenges of creating and supporting multidisciplinary teams of researchers to investigate such concerns and the methods and means for facilitating their collaboration and the integration of their findings to form new and useful perspectives on the nature of change in the contemporary Arctic. It also provides helpful consideration and examples of how local and indigenous communities can be engaged in the co production of knowledge regarding the region. The volume discusses how such research findings can be best communicated and shared between scientists, policymakers and northern residents. It considers the challenges of building common concern not just among different research disciplines but also between bureaucracies and the public. Only when this bridge building effort is undertaken can true pathways to action be established. Globalisation and Its Impact on Wales: Oral and written evidence Great Britain. Parliament. Learning the Arts of Linguistic Survival Alison Phipps, 2006-11-10. In this ground breaking contribution to the study of tourism and languages Alison Phipps examines what happens when tourists learn to speak other languages. From ordering a coffee to following directions she argues for a new perception of the relationship between tourism and languages from one based on the acquisition of basic functional skills to one which sustains and even strengthens intercultural dialogue. The twelve chapters comprising this book tell stories of the experience of learning and speaking tourist languages. Drawing on a range of disciplines Alison Phipps takes the reader on a journey through risk, way finding, mistakes, laughter, conversations and the imagination. She provides rich descriptions of the world of language learning which has remained invisible to mainstream studies of language education existing as it does on the margins of educational life. She shows how tourism is shaped by the learning experiences of everyday life. Languages she argues passionately fundamentally change the nature of perception, dwelling and relationships to other people and the world. This book will be essential reading for all those interested in tourism studies and in modern languages education. It is a timely study coming at a time of crisis in languages as English exerts its power as a world language and as a dominant language of tourism. **Learning the Arts of Linguistic Survival** Language and Tourism. Life will also be of interest to anthropologists, linguists, geographers, sociologists and those studying education.

Making Ireland Irish Eric G. E. Zuelow, 2009-03-01. From the dark shadow of civil war to the pastel painted towns of today, *Making Ireland Irish* provides a sweeping account of the evolution of the Irish tourist industry over the twentieth century. Drawing on an extensive array of previously untapped or underused sources, Eric G. E. Zuelow examines how a small group of

tourism advocates inspired by tourist development movements in countries such as France and Spain worked tirelessly to convince their Irish compatriots that tourism was the secret to Ireland's success. Over time, tourism went from being a national joke to a national interest. Men and women from across Irish society joined in eager to help shape their country and culture for visitors' eyes. The result was Ireland as it is depicted today: a land of blue skies, smiling faces, pastel towns, natural beauty, ancient history, and timeless traditions. With lucid prose and vivid detail, Zuelow explains how careful planning transformed Irish towns and villages from grey and unattractive to bright and inviting, sanitized Irish history to avoid offending Ireland's largest tourist market, the English, and supplanted traditional rural fairs revolving around muddy animals and featuring sexually suggestive ceremonies with new family-friendly festivals and events filling today's tourist calendar. By challenging existing notions that the Irish tourist product is either timeless or the consequence of colonialism, Zuelow demonstrates that the development of tourist imagery and Irish national identity was not the result of a handful of elites or a postcolonial legacy but rather the product of an extended discussion that ultimately involved a broad cross-section of society both inside and outside Ireland. Tourism, he argues, played a vital role in making Ireland Irish.
