Program to Writing Academic Argument Papers Using the Template Method is designed to help students who have been needlessly struggling with writing for their college classes because they fail to understand how college writing differs from other types of writings. This book has two goals: One to provide you the student with a template to follow in composing your own standard academic essay and two to explain how and why you should follow the process of producing original researched academic essays when trying to prove competency in English writing in colleges and universities. You know how to write what you need are the rhetorical skills to help you write better. This book can help.

Framing Ethics and Plagiarism in Medical Research Writing and Publishing Girolamo Tessuto, Michele Caraglia, 2024-01-15. As scientific knowledge is continually refreshed by new experiments and theoretical insights and openly communicated to the medical community upholding the academic integrity of scientific publishing is a key ethical issue in medical research. Academic integrity does not just involve commitment to a moral code or ethical policy; it is also about adherence to a set of values that avoid plagiarism and support trustworthy fair and honest behaviour in medical research and publishing thus ensuring that knowledge dissemination proceeds unhampered. However plagiarism is often framed in narrow judgmental terms that leave little room for doctors and researchers to understand its complexities and consequences made all the more complicated by the increasing use of the internet as a research space. This book provides an extensive exploration of ethics and plagiarism helping its readership to understand how and to what extent the language and text processing components of medical discourse can and should be scrutinized across the genres that matter to scientific medical research writing practices and publishing.
