par l'établissement de plusieurs familles et qu'il est très loin des autres églises paroissiales. La construction en pans de bois. Au Pays Basque, la construction en pans de bois est quelque chose d'assez particulier, la fois par l'armature et par le remplissage. En ce qui concerne les murs extérieurs, il n'y a pas de pans de bois dans les murs latéraux ni dans le mur pignon arrière qui est toujours en pierre. La construction en pans de bois ne se rencontre donc qu'en façade seulement en tige car le rez-de-chaussée du mur de façade est toujours en maçonnerie. Encore ce type de construction n'est-il pas utilisé dans toutes les régions puisque comme nous le verrons, les parties montagneuses de Basse Navarre l'ignorent. Par contre, il est fréquent et ceci dans toutes les régions que les cloisons intérieures soient en pans de bois. L'armature de la construction en pans de bois est relativement simple. Au-dessus de la maçonnerie du rez-de-chaussée est placée une grande poutre sablière sur laquelle viennent reposer les solives du plancher de l'étage. Leur extrémité ne saillant pas, ils ne chantournent pas en façade et participent à l'ornementation de celle-ci.

Revue de Béarn, Navarre et Lannes, 1886. *The Basques* Kelly Mass, The Basques are an ethnic group indigenous to Southwestern Europe distinguished by their unique genetic heritage, ancient language Euskara and distinct cultural practices. Their homeland known as the Basque Country Euskal Herria spans both sides of the Pyrenees covering areas in north central Spain and southwestern France and lies along the Bay of Biscay. Basque identity traces back to ancient populations such as the Vascones and Aquitanians resulting in a rich and enduring cultural legacy that remains highly distinctive even today. In recent years, advances in genetic research have provided remarkable insights into Basque origins. A pivotal study published in 2015 revealed that the Basques are primarily descended from Neolithic farmers who arrived in the Iberian Peninsula thousands of years ago. These early agriculturalists intermingled with the local Mesolithic hunter-gatherers in the region but later became genetically isolated, diverging significantly from other European populations over millennia. This long-standing genetic isolation has likely contributed to the unique characteristics of the Basque people and their differentiation from surrounding groups.

Le français et les langues historiques de la France Hervé Abalain, 2007. Le français et les langues historiques de la France se propose d'examiner dans une première partie la naissance puis l'évolution de la langue française ainsi que son implantation et sa place actuelles dans le monde afin de mieux saisir toutes les implications de son statut officiel de langue de la République. La seconde partie sera consacrée aux langues historiques de la France : alsacien, allemand, manrique, francique, basque, breton, catalan, corse, flamand, francique, franco-provençal, occitan, langues d'oïl, bourguignon, champenois, franc-comtois, lorrain, gallo, normand, picard, poitevin, saintongeais, parlers du Morvan, wallon et créoles bas-français qui sont aujourd'hui reconnues comme langues de France, bien qu'elles aient longtemps été méprisées et combattues. La politique du Conseil de l'Europe et celle du Parlement européen leur sont favorables, mais la France qui n'a toujours pas ratifié la Charte européenne des langues régionales ou minoritaires fait preuve de frilosité. Leur garde, l'analyse des multiples aspects

de la situation linguistique actuelle de la France permettra au lecteur de se faire une idée précise de la richesse et de la valeur du patrimoine culturel du pays et le cas échéant de réviser certains a priori
