Proceedings of the Unima International Conference on Social Sciences and Humanities (UNICSSH 2022)

Recky Harold Elby Sendouw, Theodorus Pangalila, Sjamsi Pasandaran, Vivi P. Rantung, 2023-01-24 This is an open access book The Unima International Conference on Social Sciences and Humanity UNICSSH 2022 was conducted on October 11th 13th 2022 at The Grand Kawanua International City Manado North Sulawesi Indonesia In 2022 Universitas Negeri Manado will host the Indonesian National Education Convention KONASPI X Konaspi is a routine activity of the PPTKN which is held once every four years The fourth industrial revolution 4.0 is marked by technological advances and supported by artificial intelligence that creates opportunities and challenges for the education system University and vocational school graduates are facing a world transformed by technology which in turn is transforming the workplace from task based to human centered characteristics Certain skills such as critical thinking emotional intelligence problem solving cognitive flexibility and knowledge production are required To answer this demand the education system must put revolutionary innovation on its agenda Scholars researchers and practitioners are invited to share ideas research results and best practices about education science and technology now and in the future at an international conference held by Universitas Negeri Manado as part of the Indonesian National Education Convention KONASPI As part of KONASPI X activities Universitas Negeri Manado is holding the 2022 International Conference on Education Social Science and Humanities ICESSHum The topics in this international conference are Education Law Politics and Social Sciences Economics Public Administration and Humanities Through these themes it is expected to involve many professionals who have indirect roles in related fields To enrich this event the committee invites all national and international participants including academics researchers professionals and other relevant stakeholders to send research papers or review papers to be presented at the conference *Project-Based Learning Applied to the Language Classroom* Juliana Franco Tavares/ Louise Emma Potter, 2018-03-05 In *Project Based Learning Applied to the Language Classroom* the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second

or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren't enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language

Successfully Implementing Problem-Based Learning in Classrooms Thomas Brush, John W. Saye, 2017-03-15 Problem based learning PBL represents a widely recommended best practice that facilitates both student engagement with challenging content and students ability to utilize that content in a more flexible manner to support problem solving This edited volume includes research that focuses on examples of successful models and strategies for facilitating preservice and practicing teachers in implementing PBL practices in their current and future classrooms in a variety of K 12 settings and in content areas ranging from the humanities to the STEM disciplines This collection grew out of a special issue of the Interdisciplinary Journal of Problem Based Learning It includes additional research and models of successful PBL implementation in K 12 teacher education and classroom settings

How to Use Problem-based Learning in the Classroom Robert Delisle, Association for Supervision and Curriculum Development, 1997 Engaging and motivating students especially the least motivated learners is a daily challenge But with the process of problem based learning PBL any teacher can create an exciting active classroom where students themselves eagerly build problem solving skills while learning the content necessary to apply them With problem based learning students work begins with an ill defined problem Key to this

problem is how it explicitly links something important in students daily lives to the classroom This motivational feature is vital as students define the what where and how of resolving the problem situation Problem based learning may sound potentially chaotic and haphazard but it rests on the firm foundation of a teacher s work behind the scenes The teacher develops a problem long before students see it specifically choosing the skills and content the problem will emphasize and matching those to curriculum and standards Though a PBL problem will have no right answer the teacher structures the experience so that specific learning takes place as students generate the problem solving steps research issues and produce a final product The teacher guides without leading assists without directing
