## Sample Year 7 Cat Tests:

Analysing Underachievement in Schools Emma Smith, 2005-06-09 Underachievement in school is one of the most widely used terms in education today. As a discourse it has been responsible for influencing government policy, staffroom discussions as well as the pages of academic journals and the TES. It is also a subject which raises questions about what we expect from a fair and equitable education system. This book provides a critical analysis of two sides of the underachievement debate at each of the three levels of focus: international, the UK and the individual. On the one hand it will consider the crisis account of falling standards and failing pupils and on the other present an alternative account which urges a re-evaluation of the underachievement debate in order to consider who might be underachieving and why.

**Education and Learning** Jane Mellanby, Katy Theobald, 2014-05-12 Education and Learning offers an accessible introduction to the most recent evidence-based research into teaching, learning and our education system. Presents a wide range of references for both seminal and contemporary research into learning and teaching. Examines the evidence around topical issues such as the impact of Academies and Free Schools on student attainment and the strong international performance of other countries. Looks at evidence-based differences in the attainment of students from different socioeconomic and ethnic backgrounds and explores the strong international performance of Finnish and East Asian students. Provides accessible explanations of key studies that are supplemented with real-life case examples.
