**Choral Singing** Ursula Geisler, Karin Johansson, 2014-10-16 What role does contemporary choral activity play in the construction of social and musical meaning How can historical knowledge and analysis shed light on contemporary choral problems and possibilities And how can choral research promote the development and expansion of new music today Questions like these are addressed in this anthology from a wide range of disciplines and perspectives The book comprises a selection of papers presented at the International Conference on the Concepts and Practices of Choral Singing in Lund Sweden in October 2012 The aim of the conference was to highlight the contemporary dynamic developments in choral research and to explore interdisciplinary investigations and interaction between practice based and historical approaches The conference was also the fourth meeting of the network Choir in Focus which was initiated in 2009 at Southern Choral Centre K rcentrum Syd a joint venture between Malm Academy of Music the Department of Musicology Odeum all at Lund University Malm Symphony Orchestra and Music South Musik i Syd Sweden The continuous ambition of the network has been to provide a forum for co operation across national and disciplinary borders and to encourage debates around the musical and social function of choirs in modern society as mirroring collective and individual needs for meaning music making and well being In the introductory chapter the editors describe choral practice as a field of simultaneous re presentation re production and re creation and suggest that

these three aspects may be seen as umbrella themes for the fifteen chapters of the anthology The authors come from Sweden Norway Finland Estonia Germany United Kingdom Portugal and Belgium and explore choral practice from differing theoretical and methodological starting points Together they contribute to a transdisciplinary discussion about the origins functions and meanings of choral singing **Romania** ,1960 Christian Chronicles Beverly Hollandbeck,2008 **Brill's Companion to Theocritus** ,2021-08-16 Through the variety of its scholarly perspectives Brill Companion to Theocritus offers a tool for the study of one of antiquity s foremost poets Offering a thorough examination of textual transmission ancient commentaries literary dialect and poetic forms the present volume considers Theocritus work from novel theoretical perspectives such as gender and emotions It expands the usual field of inquiry to include religion and the poet s reception in Late Antiquity and early modern times The various chapters promote Theocritus profile as an erudite poet who both responds to and inaugurates a rich and variegated tradition The combination of these various perspectives places Theocritus at the crossroads of Ptolemaic patronage contemporary society and art Contestatory Visions George Astalos,1991 George Astalos has remained a contestatory visionary a playwright and poet who offers critiques of Eastern bloc tyranny and Western moral bankruptcy At once absurdist and political brutally colloquial and intensely lyrical Astalos s theater is a comic and popular one of ideas in which the poet and the satirist find equal voice Worship as Community Drama Pierre Hegy,2019-03-22 Church weddings funerals and most Sunday services reflect the values and dramas of their communities even when the ministers are the main or sole actors This point is illustrated by examples ranging from American television masses to the Zairean three hour services in the Congo Of greatest interest to readers might be the Sunday services at ordinary parishes which also range from friendly but uninspiring to innovative and inviting There are also two exceptionally vital churches analyzed here an evangelical church in the Pentecostal tradition and a social justice parish in the tradition of Martin Luther King Jr Today one can hardly buy an item in a store or on the Internet without being asked for an evaluation yet church services are seldom evaluated There can be no improvement without evaluation This book proposes a method of evaluation in eight steps that must be rigorously scientific and at the same time offer a vision for spiritual growth The prophet Elijah found God in earthquakes and fire but most people find mystery through art music rhythm chanting expressive readings evocative rituals and enlightened homilies Today people expect mystagogy rather than routine performances Mystagogy can be learned and improved through evaluation to which this book desires to make a major contribution *The Rise of Gospel Blues* Michael W. Harris,1994-06-23 Most observers believe that gospel music has been sung in African American churches since their organization in the late 1800s Yet nothing could be further from the truth as Michael W Harris s history of gospel blues reveals Tracing the rise of gospel blues as seen through the career of its founding figure Thomas Andrew Dorsey Harris tells the story of the most prominent person in the advent of gospel blues Also known as Georgia Tom Dorsey had considerable success in the 1920s as a pianist composer and arranger for prominent blues singers including Ma

Rainey In the 1930s he became involved in Chicago's African American old line Protestant churches where his background in the blues greatly influenced his composing and singing Following much controversy during the 1930s and the eventual overwhelming response that Dorsey's new form of music received the gospel blues became a major force in African American churches and religion His more than 400 gospel songs and recent Grammy Award indicate that he is still today the most prolific composer/publisher in the movement Delving into the life of the central figure of gospel blues Harris illuminates not only the evolution of this popular musical form but also the thought and social forces that forged the culture in which this music was shaped

**Salish** James M. Hundley, 2024-12-15 Through immersive ethnographic research *We are Coast Salish* Indigeneity Settler Colonialism and Border Securitization explores the lives of the Coast Salish First Nations of the Pacific Northwest and the various ways they respond to the challenges of navigating the Canada-US border following the events of 9/11 Decades of securitization policies have led to cultural and political changes which entail the creation of a transnational political identity that is used to resist the negative effects of the Canada-US border on their lives Through cultural revitalization projects environmental activism and transnational political maneuvering this book argues the Coast Salish resist the artificial separation of their people by the international border James M. Hundley utilizes ethnographic methods in sociocultural anthropology to argue that the resistance to security policies that threaten to divide the Coast Salish simultaneously reinforces the hegemony of the state and the ongoing forms of settler colonialism that continue to shape Indigenous lifeways across the continent Ultimately their ongoing efforts are a form of decolonization from those disenfranchised by the state and located outside the halls of power

**The Chinese Transformation of Corporate Culture** Colin S. C. Hawes, 2012 In recent years Chinese policymakers and corporate leaders have focused enormous attention on the concept of corporate culture Despite its widespread influence among Chinese corporate leaders and policymakers the corporate culture phenomenon has not been studied in detail by non-Chinese scholars This book will reveal the political, social and economic factors behind the enormous current interest in corporate culture in China and provide a wide range of case studies that focus on how large corporations like Haier, Huawei and Mengniu have attempted to transform their cultures and how they represent themselves as complying with the Chinese government's interpretation of positive corporate culture Hawes demonstrates how the foreign concept of corporate culture has been redefined in China to fit the Chinese political, social and cultural context He examines how this redefinition of corporate culture reflects a uniquely Chinese conception of the purposes and social functions of the capitalist business corporation and how the Chinese Communist Party's active promotion of socialist corporate culture evidences a shift in the Party's identity towards a business-friendly champion of corporate and

economic development This work will be of great interest to students and scholars of Asian Studies Business and Management and Chinese studies     The Journey Michelle Bazari,     Musical News ,1893     **Heartstrings** Jill Briscoe,2016-03-01 Have you lost your joy Life s obstacles and disappointments can tempt Christians to lose hope and hang up their joy just as the Israelites hung their harps upon trees by the rivers of Babylon In Heartstrings Jill Briscoe discusses eight trees that believers hang their joy upon including grief grudge and gloom Through biblical stories and personal narrative Jill reminds us that hope and joy can be regained when we allow the Lord to touch the heartstrings of our souls Once this happens we are able to sing a new song to God and the world     **Landscapes of Indigenous Performance** Fiona Magowan,Karl Neuenfeldt,2005 This collection shows how traditional music and dance have responded to colonial control in the past and more recently to other external forces beyond local control It looks at musical pasts and presents as a continuum of creativity at contemporary cultural performance as a contested domain and at cross cultural issues of recording and teaching music and dance as experienced by Indigenous leaders and educators and non Indigenous researchers and scholars     **Management of Event Operations** Julia Tum,Philippa Norton,2006-08-11 The Management of Event Operations project management planning and customer satisfaction provides an introduction to the management of operations for the event planner and venue provider Taking an holistic view of an event enterprise it links the traditional topics within operations management to present a coherent and hands on approach specifically for the events manager The approach is pragmatic and is dictated by practical consequences and considerations which are so important to an event manager who balances many views and needs from diverse stakeholders
