there is no single style of worship or music that determines the likelihood of achieving a multiracial church. Far more important are the complex of practices of the worshipping community in the production and absorption of music. Multiracial churches successfully diversify by stimulating unobtrusive means of interracial and interethnic relations in fact preparation for music apart from worship gatherings proves to be just as important as its performance during services. Marti shows that aside from and even in spite of the varying beliefs of attendees and church leaders diversity happens because music and worship create practical spaces where cross racial bonds are formed. This groundbreaking book sheds light on how race affects worship in multiracial churches. It will allow a new understanding of the dynamics of such churches and provide crucial aid to church leaders for avoiding the pitfalls that inadvertently widen the racial divide. Music and Mysticism

Maxwell Steer, 1997-02. First Published in 1997. Routledge is an imprint of Taylor Francis, an informal company. **The Oxford Handbook of Music and World Christianities** Suzel Ana Reily, Jonathan Dueck, 2016. The Oxford Handbook of Music and World Christianities investigates music's role in everyday practice and social history across the diversity of Christian religions and practices around the globe. The volume explores Christian communities in the Americas, Europe, Africa, Asia, and Australia as sites of transmission, transformation, and creation of deeply diverse musical traditions. The book's contributors, while mostly rooted in ethnomusicology, examine Christianities and their musics in methodologically diverse ways, engaging with musical sound and structure, musical and social history, and ethnography of music and musical performance. These broad materials explore five themes: music and missions; music and religious utopias and other oppositional religious communities; music and conflict; music and transnational flows; and music and everyday life. The volume as a whole then approaches Christian groups and their musics as diverse and powerful windows into the way in which music, religious ideas, capital, and power circulate and change between places now and historically. It also tries to take account of the religious self-understandings of these groups, presenting Christian musical practice and exchange as encompassing and negotiating deeply felt and deeply rooted moral and cultural values. Given that the centerpiece of the volume is Christian religious musical practice, the volume reveals the active role music plays in maintaining and changing religious moral and cultural values in a long history of intercultural and transnational encounters. **Grazing and Growing** Megan

Meyers, 2018-02-27. This book explores the impact of contextualized worship arts on the development of church ministry and missions in urban churches in Beira, Mozambique. This applied research, which took place over the course of two years, focuses on expanding the song writing workshop model in an effort to enhance culturally appropriate worship in the local church. Results of this study include increased use of local hymnody, intentional use of worship to teach theological truths, engaged pastors and empowered worship leaders, and a greater missional involvement through the use of contextualized worship arts. This book clearly demonstrates the necessity of contextualized worship arts as a key component of local church growth and the development of its members, encouraging personal discipleship, growing local ministry, and empowering for mission.
