What Is Cool?

No one can truly understand the sensation of jumping directly onto a turtle, but this is just one of many characteristics bestowed upon the main character in the book *Super Plumber Guy*. The book depicts a brightly lit world of wonder, fungi, and amphibians in varying biomes. While the main character, Mr. Plumber, is depicted as an everyman, his distinct look, style, and behaviors as described in the book show that he is anything but.

Mr. Plumber was originally written as something of an everyday character that the reader could embody. He has no true personality, nor does he have a voice, often allowing secondary characters around him to fill in the gaps. The reader does know that he wears a brightly colored hat, jumps high, and enjoys mushrooms. These are humble characteristics that bring out the humanity of the character. Most people are not a list of unique characteristics but a mosaic of smaller idiosyncrasies.

Super Plumber Guy remains a popular read containing a human character that many might consider boring or free of personality. However, Mr. Plumber is an exceedingly human character who acts as a blank slate for the reader. Diving deeper into other characters and their interactions with him may glean further insight into Mr. Plumber's motivations and inner psychology.

Tony Wagner

What Can Be A Essay On Gradeeconomics 2014:

The Global Achievement Gap Tony Wagner, 2014-03-11 Despite the best efforts of educators our nation's schools are dangerously obsolete. Instead of teaching students to be critical thinkers and problem solvers we are asking them to memorize facts for multiple choice tests. This problem isn't limited to low income school districts even our top schools aren't teaching or testing the skills that matter most in the global knowledge economy. Our teens leave school equipped to work only in the kinds of jobs that are fast disappearing from the American economy. Meanwhile young adults in India and China are competing with our students for the most sought after careers around the world. Education expert Tony Wagner has conducted scores of interviews with business leaders and observed hundreds of classes in some of the nation's most highly regarded public schools. He discovered a profound disconnect between what potential employers are looking for in young people today: critical thinking skills, creativity and effective communication and what our schools are providing: passive learning environments and uninspired lesson plans that focus on test preparation and reward memorization. He explains how every American can work to overhaul our education system and he shows us examples of dramatically different schools that teach all students new skills. In addition through interviews with college graduates and people who work with them Wagner discovers how teachers, parents and employers can motivate the generation to excellence. An education manifesto for the twenty first century. *The Global Achievement Gap* is provocative and inspiring. It is essential reading for parents, educators, business leaders, policy makers and anyone interested in seeing our young people succeed as employees and citizens.
