Forgotten British Film Philip Gillett, 2017-05-11 Some films are remembered long after they are released others are soon forgotten but do they deserve oblivion Are factors other than quality involved This book exhumes some of the films released in Britain over the last seventy years from *Daybreak* 1948 to *16 Years of Alcohol* 2003 and considers the reasons for their neglect As well as exploring the contributions of those involved in making the films the book examines such issues as marketing and the response of critics and audiences Films are grouped loosely into categories such as B films and television films Some works were little seen when they were first released and have stayed that way others were popular in their day but have slipped into obscurity In some cases social change has overtaken them making the attitudes or subjects they depict seem dated Even being released as a DVD does not guarantee that a title will be rehabilitated In addition how significant is the American market This book should appeal to lovers of British film as well as to film studies students and everybody curious about the vagaries of success and failure in the arts

A Politic Theatre: The Drama of David Hare Scott Fraser, 2022-06-08 This analysis of twenty published texts by David Hare employs definitions from contemporary semiotic literary theory as a means of describing typologies of political drama By tracing the incorporation of stylistic devices from agitational propaganda caricature self referentiality the frisson between oral and visual signification throughout the typologies the study illustrates how each text subverts audience expectation based on established dramatic genres The collection of texts is seen as inherently self referential and politically subversive At the centre of each typology is a protagonist who functions as a martyr to or parodic emblem of contemporary society Consistently the hermeticism of public institutions which represent the political status quo makes them immune from any form of individual protest from the Left or Right In the satirical anatomy the emblem of political dissent is coopted by involvement within the institution or the stage is dominated by a conservative who controls the action In the demythology private individuals are seen as incapable of altering the public frame of history but here private suffering subverts the collective mythology of the historical construct In the martyrology the emblem of dissent is associated with a moral virtue which is inimical to contemporary society the audience's expectation of the triumph of the individual being subverted when he/she is expelled from the onstage world on the grounds of political ideology It is only in the final typology the conversion that a conservative emblem is seen as directly influenced by such martyrdom and the audience is provided with an actual example of political change Thus the study describes how each typology builds on the construction of the previous and all generate from agitational propaganda

Playing with Earth and Sky James Housefield, 2016-07-05 *Playing with Earth and Sky* reveals the significance astronomy geography and aviation had for Marcel Duchamp widely regarded as the most influential artist of the past fifty years Duchamp transformed modern art by

abandoning unique art objects in favor of experiences that could be both embodied and cerebral This illuminating study offers new interpretations of Duchamp's momentous works from readymades to the early performance art of shaving a comet in his hair It demonstrates how the immersive spaces and narrative environments of popular science from museums to the modern planetarium prepared paths for Duchamp's nonretinal art By situating Duchamp's career within the transatlantic cultural contexts of Dadaism and Surrealism this book enriches contemporary debates about the historical relationship between art and science This truly original study will appeal to a broad readership in art history and cultural studies
