Barton-Bellessa,2012-05 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not
working alternatives to standard prison settings were sought and developed One of those alternatives community based
corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective
particularly with people who had committed less serious criminal offenses and for whom incarceration with constant
exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of
community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in
recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders
to fix overextended prison settings and an economic search for cost savings Encyclopedia of Community Corrections explores
all aspects of community corrections from its philosophical foundation to its current inception Features a thematic reader s
