Passages in Modern Sculpture, 1977 Passages in Modern Sculpture Rosalind E. Krauss, 1989 Modern Sculpture Douglas Dreishpoon, 2022-10-25 This tapestry of primary sources is an essential primer on sculpture and its makers Modern Sculpture presents a selection of manifestos documents statements articles and interviews from more than ninety sculptors including a diverse selection of contemporary sculptors With this book editor Douglas Dreishpoon defers to artists whose varied points of view illuminate sculpture's transformation from object to action concept to phenomenon over the course of more than a century Chapters arranged in chronological sequences highlight dominant stylistic philosophical and thematic threads uniting kindred groups The result is an artist centric history of sculpture as a medium of consequence and character Modern Sculpture Reader Jon Wood, David Hulks, Alex Potts, 2012-08-21 In many anthologies of art sculpture is given short shrift in relation to other media if it is treated at all Modern Sculpture Reader aims to rectify this situation by presenting a collection of important texts that have defined sculpture's radically changing status and role since the end of the nineteenth century a time marked by a general reappraisal of the forms and functions of art From the rigorously theoretical to the experimental and poetic Modern Sculpture Reader offers a lively discourse on the medium by a range of artists writers critics and poets Marcel Duchamp Louise Bourgeois Claes Oldenberg Andr Breton Ezra Pound and Clement Greenberg in a variety of genres poems lectures transcribed interviews newspaper and magazine articles and artists statements These diverse text selections offer valuable insight into the development of the critical language of sculpture and its connections to other media in an era of increasingly conceptual artistic practice Many of the essays highlight key ongoing concerns such as sculpture's physical properties and conditions of display both of which have important implications for the viewer's tactile and emotional interaction with sculptural works After Modern Sculpture Richard J. Williams, 2000 Stars are central to the cinema experience and this collection offers a variety of fresh and informed perspectives on this important but sometimes neglected area of film studies This book takes as its focus film stars from the past and present from Hollywood its margins and beyond and analyses them through a close consideration of their films and the variety of contexts in which they worked The book spreads the net wide looking at past stars from Rosalind Russell and Charlton Heston to present day stars including Sandra Bullock Jackie Chan and Jim Carrey as well as those figures who have earned themselves a certain film star cachet such as Prince and the martial artist Cynthia Rothrock The collection will be essential reading for students and lecturers of film studies as well as to those with a general interest in the cinema Modern Sculpture A.M.
