

Compare & Contrast

Lions and Tigers

Lions and tigers both belong to the cat family, known as Felidae. There are several similarities and differences between these two amazing animals. Lions are taller than tigers, but tigers are much longer. Tigers are also stronger and heavier than lions. Male lions have a dark brown mane around their face. Unlike lions, male tigers do not have manes. Tigers have orange fur

with a pattern of black stripes which help tigers hide. A lion does not have stripes, and its fur is a yellow-gold colour.

Lions and tigers are both good at hunting. Lions live and hunt in groups called prides. Tigers live and hunt by themselves. Both animals hunt at night. Most lions live in the grasslands in Africa. Most Tigers live in rainforests or grasslands in Asia.

Compare lions and tigers using the Venn diagram.
