Performing Ethics in English Revenge Drama Noam Reisner, 2024-06-30 An investigation of how Renaissance English revenge drama carried out important ethical work through audience participation and metatheatre **Perry Rhodan NEO: Volume 11 (English Edition)** Alexander Huiskes, Wim Vandemaan, 2023-01-13 Crest and his companions find themselves transported to a desolate dying planet inhabited by insectoid creatures pursuing a dangerous mission under the yoke of the Arkonides complete a superweapon for use against the Methanes While investigating they discover a more familiar species the Ilts being oppressed by their hosts Meanwhile Manoli and his companions have fallen ill The mysterious sickness is thought to be linked to their time as Besun but relations between the Fantan and Earth are fragile Can the Fantan save their former captives lives Elsewhere in the galaxy Rhodan s crew find themselves stranded in time and space on Ambur the Vega system s mysterious tenth planet a hostile wasteland with pockets of civilization What are Rhodan Thora and the others expected to give in return for their rescue by its inhabitants And can the strangers cure the strange affliction tormenting Bull and Sue *Essential Cases on the Limits of Liability* Bénédicte Winiger, Bjarte Askeland, Elena Bargelli, Martin Hogg, Ernst Karner, 2024-11-04 European legal systems have developed a broad range of instruments aimed at limiting liability These instruments are systematically examined within the present volume which builds on the experience gathered in the various jurisdictions over the past decades and thereby fills a major gap in tort law literature The publication contains a selection of the most important cases from 27 states across Europe as well as decisions by European Union courts it also highlights cases from earlier periods of legal history For each case the facts and the relevant court decision are presented and accompanied by an analytical commentary In addition comparative analyses of the reported cases are provided and a special report is dedicated to how key cases would be resolved under model European rules on tort law The editors believe that the material gathered here may provide guidance for an organic convergence of the national legal systems in Europe It constitutes the basis of an *acquis commun* that is infinitely richer though also much more complex than the rather bland and abstract concepts contained in national codifications European legislation and modern model rules De Vere as Shakespeare William Farina, 2014-12-24 The question may be met with chagrin by traditionalists but the identity of the Bard is not definitely decided During the 20th century Edward de Vere the most flamboyant of the courtier poets a man of the theater and literary patron became the leading candidate for an alternative Shakespeare This text presents the controversial argument for de Vere s authorship of the plays and poems attributed to Shakespeare offering the available historical evidence and moreover the literary evidence to be found within the works Divided into sections on the comedies and romances the histories and the tragedies and poems this fresh study closely analyzes each of the 39 plays and the sonnets in light of the Oxfordian authorship theory The vagaries surrounding Shakespeare including the lack of information about him during his lifetime especially relating to the lost years of 1585 1592 are also analyzed to further the question of Shakespeare
