Katharine T. Bartlett,Judith Welch Wegner,1987-01-01 The presence of children with special needs in public schools has created diverse and shifting tensions During the 1970s parents and advocates sought to remove existing barriers and secure greater educational opportunity for handicapped children in public education insisting that all children can learn and that all children suffer adverse effects from the exclusion of the handicapped from public schools The legislation that was the product of their efforts The Education for All Handicapped Children Act of 1975 EAHCA has become central to the continuing debate over the role of public schools in educating children with special needs The authors of the essays included in this volume contribute to this debate in two ways First they evaluate the success of EAHCA and other legal mechanisms designed to ensure that the requirements of children with special needs are adequately met from a variety of historical empirical analytical and comparative perspectives Second they suggest steps that might be taken to help such legal strategems attain their goals These suggestions respond to tensions that have shaped and will continue to shape the reaction of educators parents and the legal system to children with special needs during the years to come The Cambridge Handbook of Health

Harding,2025-08-19 A humanist manifesto for the age of AI Artificial intelligence may be the most transformative technology of our time As AI s power grows so does the need to figure out what and who this technology is really for AI Needs You argues that it is critical for society to take the lead in answering this urgent question and ensuring that AI fulfills its promise Verity Harding draws inspiring lessons from the histories of three twentieth century tech revolutions the space race in vitro fertilization and the internet to empower each of us to join the conversation about AI and its possible futures Sharing her perspective as a leading insider in technology and politics she rejects the dominant narrative which often likens AI s advent to that of the atomic bomb History points the way to an achievable future in which democratically determined values guide AI to be peaceful in its intent to embrace limitations to serve purpose not profit and to be firmly rooted in societal trust Now with a new foreword by the author AI Needs You gives us hope that we the people can imbue AI with a deep intentionality that reflects our best values ideals and interests and that serves the public good AI will permeate our lives in unforeseeable ways but it is clear that the shape of AI s future and of our own cannot be left only to those building it It is up to us to guide this technology away from our worst fears and toward a future that we can trust and believe in **Revisiting the**

Regulation of Human Fertilisation and Embryology Kirsty Horsey,2015-06-19 The Human Fertilisation and Embryology Act 2008 was a major update to the UK s laws on the use and regulation of reproductive technology and assisted reproduction Since the enactment of the new law the sector s regulatory body the Human Fertilisation and Embryology Authority HFEA has also consulted on various related topics including barriers to egg and sperm donation in the UK multiple births single embryo transfer and using IVF technology to prevent mitochondrial disease This book critically considers recent developments in human fertilisation legislation asking whether the 2008 Act has achieved its stated aim of being fit for purpose Bringing together a range of international experts the book evaluates the fresh risks and challenges emerging from both established and existing technologies and techniques in the field of human fertilisation and embryology as well as offering valuable insights into the social and regulatory challenges that lie ahead Key topics include problems with DIY assisted conception the lack of reform in respect of the regulation of surrogacy arrangements and mitochondrial DNA transfer As a review of the status of assisted reproduction legislation this book will be of great use and interest to students researchers and practitioners in medical law bioethics medicine and child welfare Europe—Japan Vincent J.

McBrierty,2014-05-20 Europe Japan Futures in Science Technology and Democracy presents the combined European and Japanese thinking on the implications of scientific and technological developments for society and democracy This book addresses the challenges and the advantages that science and technology brings to Europe and Japan and explores how the process and application of scientific discovery can be beneficial to all people in the world This monograph is comprised of six

chapters and begins with a discussion on the impact of science on civilization and democracy with emphasis on the challenges and opportunities afforded by technological innovations The implications of advances in biology and medicine for human rights are the subject of the next chapter paying particular attention to the themes of freedom ethics and the role of communication and dialogue in society This book also explores cooperation and competition in science and advanced technology before concluding with a chapter that describes the scientific and technological linkages between Europe and Japan This text will be a valuable resource for policymakers parliamentarians scientists and others who are concerned with the increasingly complex arena of science and politics **Official Report of the Standing Committees** Great Britain. Parliament. House of Commons,1991 Ethics Of In Vitro Fertilisation Tony Dyson,1994-12-01 Our Choices is a series which introduces specific subjects of concern and controversy within Christian ethics to a wide variety of readers Each subject is approached at a serious level but technical language is avoided The books should be useful in introductory seminary programmes in programmes for congregational development and also to individuals seeking information and guidance within their Christian life On 25th July 1978 Louise Brown the first test tube baby was born This event captured the public imagination and made the ethical issues surrounding artificial fertilization and embryology impossible to ignore In this text Tony Dyson examines the religious and moral implications for the individual and for society of this and other reproductive technologies **Introduction to Feminist Jurisprudence** Hilaire Barnett,2013-09-05 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company
