

The background of the entire cover is a close-up, detailed illustration of a warrior cat's face. The cat has dark fur on its left side and lighter, golden-brown fur on its right side. Its eyes are a striking yellow-gold color. The background behind the cat's head is a dramatic sky with swirling blue and white clouds, and a bright, glowing light source, possibly the sun or moon, creating a lens flare effect. The overall mood is intense and epic.

Virtues in African Stories Kwame Afadzi Insaadoo, 2021-04-06 These thrilling whimsically and action packed anthology of adventurous stories bring to life some vital aspects of traditional African culture These wonderful African traditional stories offer a rare glimpse into a portion of African traditional culture not often openly discussed outside many remote villages they originate from As you peer through these pages be prepared to be thrilled and amazed as some aspects of ancient African culture are brought to life through amazing story telling Most of the stories are used to reinforce the traditional virtues in these tribal societies Some of the stories illustrate and exemplify what happens to youngsters when they choose to follow the century old African tradition and culture and when another youngster deviates from the traditional African values of respecting and

honoring their elders And yes some of the stories are told to young girls in rural areas as cautionary tales to keep them from marrying total strangers outside their respective tribes Most of the stories and folktales here are fictionalized and many characters borrowed from various cultures to entertain the reading audience while imparting numerous traditional virtues and morals into the youngsters The ancient traditional African elders strongly believe in inculcating and ingraining these societal virtues into their youngsters because like the ancient Greek philosophers the African elders deeply concurred with Plato's enunciation that Now since men are by nature acquisitive jealous combative and erotic how shall we persuade them to behave themselves By the Policeman's omnipresent club It is a brutal method costly and irritating There is a better way and this is by lending to the moral requirements of the community *Beyond the Beyond* Anthony James, 1996 *Beyond the Beyond* is the first role playing game developed exclusively for the Playstation console by Sony Computer Entertainment With this guide you can learn to perform magic spells use weapons and gain powerful hit points with every combat win [Norse Myths and Legends](#) Martyn Whittock, Hannah Whittock, 2017-10-12 A terrific detailed introduction of these wonderful stories and the pantheon of characters in them their writing is vivid and lively a great addition to any library Rosi Hollinbeck San Francisco Book Review With recent volumes such as Neil Gaiman's *Norse Mythology* and J R R Tolkien's posthumously published *The Legend of Sigurd and Gudrún* appealing more to readers strictly interested in creative takes on classic Norse tales this title attracts new readers by offering solid retellings and contextual information that serve as a valuable introduction to this rich tradition *Library Journal* While the main focus of the book is on telling the stories some scene setting is provided at the beginning and each chapter also contains a section of commentary to explain what is going on and its significance The Norse myths have gained widespread attention in the English speaking world partly through a Scandinavian diaspora especially in the USA and partly through a great interest in the myths and legends which lie behind Viking activity Tolkien's Middle Earth too as seen in both *The Lord of the Rings* and *The Hobbit* films is heavily indebted to Germanic Norse mythology The Whittock's book fills a gap in the market between academic publications and the interest generating but confusing products of Hollywood and comic culture This is an accessible book which both provides a retelling of these dramatic stories and also sets them in context so that their place within the Viking world can be understood The book explores Norse myths stories usually religious which explain origins why things are as they are the nature of the spiritual and legends stories which attempt to explain historical events and which may involve historical characters but which are told in a non historical way and which often include supernatural events
