

Parent's Manual

1.0 Introduction

The purpose of this manual is to help you, the parent of a North Stars Baseball Club (NSBC) player, understand how our organization is structured, what its goals are, and what your part in its operation might be. In this manual you will find sections on NSBC's philosophy and structure, and some explanation of what parents can do to help assure the Club's success.

Simply stated, NSBC exists to serve the interests of our boys who want to play ball in a quality organization. We want to show kids how to play and enjoy the wonderful game of baseball. We want to help them develop and understand teamwork, cooperation, friendship and community, all qualities that will serve them well in later life. And while doing all that, we want our young baseball players to have a great deal of truly constructive fun on the baseball diamond.

For our coaches, the job involves far more than just teaching kids to catch, field and hit. We have to keep players interested and focused, evaluate a number of developing skills in each of the dozen or so kids on each team, maintain good behavior, and teach how the game is best played, all the while insuring the right amount of enthusiasm, positive support and fun. It is not an easy job, but it works by far the best when parents take an interest, and help it succeed.

The 2007 season will be the third for our organization. Much of our structure is still developing, and our processes evolving. We won't get it all right every season, so please be patient when you see our shortcomings, and maybe offer to pitch in where you see we need help. After we get a few seasons under our belts, we think this should be operating fairly smoothly, even though every year will present its own unique problems.

The Club has provided the structure. Your job as a parent is to enjoy watching your son take part, and hopefully help support all the things that need to be done if we are to provide the best experience possible for our players. So, have fun, help us make sure the kids are having fun, and thanks for taking part.

1.1 The NSBC Way

The North Stars Baseball Club is a non-profit community organization that provides a summer athletic program for kids in our geographic area. Last year, well over 100 boys age 5-12 played organized baseball in our organization. Our goal is to increase that number, year after year. And we'll achieve that goal if the kids are having a lot of fun, and we continue to develop the overall quality of the program.

NSBC is oriented completely around the concept of making every important decision based on what's best for the kids, the players. We put safety first, then constructive fun for the kids, then training, then winning - in that order. We call that "the North Stars way". We want our games to be competitive so they will be as interesting as possible, but we intend to keep everything in the right balance.

We want North Stars baseball players to learn the game in a positive-spirited way, without coaches and parents pushing too hard, and without the fear of failure sapping their enjoyment of the game. We want them to develop their skills in such a way that they have great constructive

Parent Survival Manual Eric Schopler, 2013-06-29 his book is the result of more than 30 years of experience and hard T resourceful work by Eric Schopler and his team first as lonely pioneers now as leaders whose influence extends as far as Kuwait India and Japan It is the fruit of a concept so simple human and obvious that it is hard to believe that not so long ago it was both revolutionary and controversial Parents of children in mid adulthood well remember what it was like to be considered the cause of their children s problems rather than part of whatever solutions could be achieved In 1971 when Eric Schopler described us as our children s cotherapists in the Journal of Autism and Childhood Schizophrenia it validated and strengthened the efforts we had already been making When Division TEACCH began to develop new methods to help autistic children and this is what was revolutionary actually to teach them to parents we could begin to heal So what seems and should seem ordinary and matter of fact about this book that it is a collection of ingenious solutions that parents have developed as responses to the continual challenges of living with autism feels to me more like a miracle It is not only that its nine chapters provide ingenious suggestions for dealing with the difficulties that arise in every aspect of daily life with an autistic person Each chapter illustrates the root principle of Division TEACCH collaboration between parents and professionals
