PC Gamer, 2007 The Official Price Guide to Classic Video Games David Ellis, 2004 From console and arcade games to handheld video games this comprehensive sourcebook and price guide lists prices for the video games of the 1970s and 1980s and game systems of the 1990s as well as information on how to restore games to their original condition and make repairs *2nd Hand Games Price Guide 2003*, 2003 *The Pinball Price Guide* Pinballeric, 2010-08-01 The Pinball Price Guide Eighth Edition by Pinballeric tm is the ideal reference for anyone collector buyer or seller trying to determine the current value and fair price of a pinball machine The Guide which covers the price values of over 2000 collectible games produced for the U S market from 1931 2010 is unique in that it breaks down pricing into Classes 1 3 Best Good OK determined by the condition of a game s backglass playfield and cabinet In addition to pricing figures the book lists the 25 most collectible games for each type of machine Besides tips for caring for and maintaining games and a list of resources of interest to pinball enthusiasts the book provides a useful worksheet to help get organized and understand the actual costs of buying or selling a game beyond the game itself The Eighth Edition by Pinballeric tm continues the tradition started by Larry Bieza who published the first seven editions Whether you are an established or beginning collector selling a game found in the basement or looking for an addition to your home game room The Pinball Price Guide by Pinballeric tm is an essential resource that points you in the right direction when buying or selling a pinball machine *The Arcade Video Game Price Guide 2002* Dan Hower, John Talarico, Tim Ferrante, 2001 *Collecting Cartridges* Michael Richardson, 2017-04-24 The Atari VCS 2600 5200 7800 Mattel Intellivision Coleco Colecovision and Milton Bradley Microvision Collecting Cartridges is much more than a book for many it s a passion likely the closest thing to a time machine to our childhoods and a period of time where video game consoles were a completely new concept It s technology that demands a fascination not just by those of us that lived it but by future generations who wish to enjoy part of this very unique period of time This guide is a work of love It came about through the lack of any other detailed price guide that was really reflective of what classic video games in similar conditions were selling for The information took years to compile but became a personal resource being referenced regularly There was no reason that if one person found it helpful many others might as well The layout of this guide is extremely simple to reference It explains through words and pictures how to categorize any particular game title by its condition The game titles are then broken down by console publisher and name Each title generally has multiple conditions reflective of

what the same game would be bought and sold for Most important is the fact that these prices are in no way arbitrary The prices are an average of each title s actual selling price Formulas are used to fill in the value of each game under varying conditions Great care has also been provided to reference the author s of each game These designers were the proverbial rock stars of the day Part of the enjoyment of collecting is getting to know each programmer and their library of work This guide contains an appendix which provides a very thorough cross reference Along with historical information on each console and adding a few fond memories this guide should be a part of any classic gamer s library Don t pay too much or accept too little If you have anything to do with classic video game systems you need this guide This is the most accurate way of determining a game s value
