Metternich Wolfram Siemann, 2019-11-05 A compelling new biography that recasts the most important European statesman of the first half of the nineteenth century famous for his alleged archconservatism as a friend of realpolitik and reform pursuing international peace Metternich has a reputation as the epitome of reactionary conservatism Historians treat him as the archenemy of progress a ruthless aristocrat who used his power as the dominant European statesman of the first half of the nineteenth century to stifle liberalism suppress national independence and oppose the dreams of social change that inspired the revolutionaries of 1848 Wolfram Siemann paints a fundamentally new image of the man who shaped Europe for over four decades He reveals Metternich as more modern and his career much more forward looking than we have ever recognized Clemens von Metternich emerged from the horrors of the Revolutionary and Napoleonic wars Siemann shows committed above all to the preservation of peace That often required him as the Austrian Empire's foreign minister and chancellor to back authority He was as Henry Kissinger has observed the father of realpolitik But short of compromising on his overarching goal Metternich aimed to accommodate liberalism and nationalism as much as possible Siemann draws on previously unexamined archives to bring this multilayered and dazzling man to life We meet him as a tradition conscious imperial count an early industrial entrepreneur an admirer of Britain's liberal constitution a failing reformer in a fragile multiethnic state and a man prone to sometimes scandalous relations with glamorous women Hailed on its German publication as a masterpiece of historical writing Metternich will endure as an essential guide to nineteenth century Europe indispensable for understanding the forces of revolution reaction and moderation that shaped the modern world

History 1971-2011 Laurence Binet, Martin Saulnier, 2019-06-04 When Médecins Sans Frontières MSF was founded in 1971 it was founded with both international and associative dimensions International because it wouldn't have made sense for MSF France on its own to aid threatened populations around the world and associative because civil law in France especially the 1901 law governing charitable bodies was perfectly suited to the MSF organisation's guiding precepts which are democratic and selfless in nature Yet MSF's development from a small purely French organisation to an international associative movement was never carefully planned or particularly smooth MSF's development was the result of various compromises between the movement's leaders with their individual agendas and the integration of *fait accompli* when necessary The evolving modifications were debated at length to ensure that concerns raised were legitimate and that there was agreement for decisions made The nature and the validity of MSF's leadership were regularly challenged as was the question of how MSF should grow while remaining true to its humanitarian precepts This case study elaborates the history of the MSF movement from inception in 1971 through 2011 when MSF legitimised an international governance system and architecture The study is divided in two episodes Episode One reviews MSF's first three decades 1971-2000 Episode Two is about the challenges of the early 21st century from 2001 to 2011
