

Warren Reeve Duchac Accounting 2e Answer Key

Showing differences come off their books as the underlying business transactions. All this creates is an artificial accounting for what's really going on. These sophisticated computer-based tools are applied not just to their accounts about the assets, liabilities, and equity that make up the balance sheet, but also to their cash flow statements, income statements, and other financial statements. The result is a picture of the company that is often very different from the actual business.

It's important to know that these tools are not perfect. They can be used to manipulate the numbers in a way that is not always obvious. This is why it's important to understand the underlying business and to be able to spot the signs of manipulation.

It's also important to know that these tools are not perfect. They can be used to manipulate the numbers in a way that is not always obvious. This is why it's important to understand the underlying business and to be able to spot the signs of manipulation.
