Warship Black Fleet Trilogy Book 1:

Warship (Black Fleet Saga, Book 1) Joshua Dalzelle, 2026-04-28 From USA TODAY bestselling author Joshua Dalzelle comes WARSHIP science fiction with an all new vision of humanity's future In the 25th century humans have conquered space The advent of faster than light travel has opened up hundreds of habitable planets for colonization and humans have exploited the virtually limitless space and resources for hundreds of years with impunity So complacent has humanity become with the overabundance that armed conflict is a thing of the past and their machines of war are obsolete and decrepit What would happen if humans were suddenly threatened by a terrifying new enemy Would humanity fold and surrender or would they return to their evolutionary roots and meet force with force One ship and one captain will soon be faced with this very choice Against incredible odds Jackson Wolfe is determined to save humanity and in the process might end up saving himself 2015 Goodreads Choice Award Nominee for Best Science Fiction From USA Today Bestselling author Joshua Dalzelle author of the bestselling Omega Force series The Expanse meets Old Man's War For fans of The Expanse Battlestar Galactica Honor Harrington Starship Troopers Old Man's War John Scalzi The Forever War Joe Haldeman The Lost Fleet Jack Campbell Terms of Enlistment Marko Kloos

Call to Arms Joshua Dalzelle, 2015-06-27 From Joshua Dalzelle comes the follow up to the 1 Bestseller Warship Captain Jackson Wolfe survived the initial incursion of a vicious alien species into human space barely He had assumed the juggernaut that had devastated three Terran systems was the herald for a full invasion but for the last few years it has been eerily quiet along the Frontier Jackson now struggles to convince the Confederate leadership the threat is still imminent and needs to be taken seriously While powerful factions make backroom deals he is desperate to find irrefutable proof that the invaders are coming and if humanity expects to survive they must marshal their forces and make a stand before it's too late

Warships of the Soviet Fleets 1939-1945 Przemyslaw Budzbon, Jan Radziemski, Marek Twardowski, 2022-10-30 Seventy five years after the end of the Second World War the details of Soviet ships their activities and fates remain an enigma to the West In wartime such information was classified and after a brief period of glasnost openness the Russian state has again restricted access to historical archives Therefore the value and originality of this work is difficult to exaggerate It sees the first publication of reliable data on both the seagoing fleets and riverine flotillas of the Soviet Navy listing over 6200 vessels from battleships to river gunboats and mercantile conversions as well as purpose built warships Divided into three volumes this first covers major surface warships down to MTBs and armored gunboats as well as submarines For every class there is a design history analyzing strategic tactical and technical considerations and individual ship detail includes construction yard key building dates commissioning fleet designations relocations and ultimate fate Once a closely guarded secret the wartime loss of every ship and boat over 1000 is described Furthermore the confusion caused by frequent name changes is clarified by indexes that run to 16 000 items By following the ships through both their wartime and earlier history the book reveals many aspects of Russian history that remain highly

sensitive clandestine co operation with Weimar Germany and fascist Italy the NKVD enforced closure of Soviet borders the Gulag Fleet the faked Metallist sinking that excused the military occupation of Estonia and the ill conceived pact with Nazi Germany Restrictions recently imposed on historical publications in Russia mean this book could certainly not have been published there as proven by the fact that most of the authors Russian collaborators preferred not to disclose their identities This is undoubtedly one of the most important naval reference works of recent years and will be welcomed by anyone with an interest in warships the Soviet Navy or wider maritime aspects of the Second World War The Laird Rams Andrew R. English,2021-10-01 Built in Birkenhead England from 1862 to 1865 the Laird rams were two innovative armored warships intended for service with the Confederate Navy during the Civil War The vessels represented a substantial threat to Union naval power and offered the Confederacy a potential means to break the Union blockade of the Southern coastline During 1863 the critical year of the Confederacy s last hope of recognition by the British and French President Lincoln threatened war with Britain if the ships ever sailed under Confederate colors Built in some secrecy then launched on the River Mersey under intense international scrutiny the ships were first seized and then purchased by Britain to avoid a war with the United States These armored warships were largely forgotten after the Admiralty acquired them Historians rarely mention these sister warships if referred at all they are given short shrift This book provides the first complete history of these once famous ironclads that never fired a shot in anger yet served at distant stations as defenders of the British Empire **Warship International** ,1992 **Whitaker's Books in Print** ,1998 **Ships Monthly** ,2003 **Russian Warships in the Age of Sail 1696-1860** Eduard Sozaev,John Tredrea,2010-06-23 Peter the Great created a navy from nothing but it challenged and soon surpassed Sweden as the Baltic naval power while in the Black Sea it became an essential tool in driving back the Ottoman Turks from the heartland of Europe In battle it was surprisingly successful and at times in the eighteenth century was the third largest navy in the world yet its history and especially its ships are virtually unrecorded in the West This major new reference work handsomely fills this gap with a complete and comprehensive list of the fleet with technical detail and career highlights for every ship down to small craft However because the subject is so little recorded in English the book also provides substantial background material on the organisation and administration of the navy its weapons personnel and shipbuilding facilities as well as an outline of Russia s naval campaigns down to the clash with Britain and France known as the Crimean War Illustrated with plans paintings and prints rarely seen outside Russia it is authoritative reliable and comprehensive the culmination of a long collaboration between a Russian naval historian and an American ship enthusiast EDUARD SOZAEV is an established Russian naval historian with a number of books to his credit JOHN TREDREA his translator editor and long term collaborator is an American ship enthusiast with a life long interest in the Russian navy **Scholarly Book Translation Series** ,1963 *Black Gold: A WarKeep 2030 Novel* Michael Kasner,2022-12-05 From action adventure novelist Michael Kasner comes a series of future military warfare The year is 2030 and the world is in a

state of political and territorial unrest The Peacekeepers an elite military force is created to combat it Armed with all the tactical advantages of modern technology battle hard and ready when the free world is threatened the Peacekeepers are the baddest grunts on the planet BLACK GOLD WARKEEP 2030 Book 0 ARAB JIHAD RISING The rugged desert terrain of the Middle East is a high tech battlefield for black gold Fighting to control the monopoly of oil is a ruthless Arab alliance up against a coalition of major Western industrial nations As the war escalates so does global unrest and the Peacekeepers are dispatched Their job is not to appeal to peace brotherhood or goodwill Times have changed but war remains the same strike first strike hard and give no quarter But in the changing battlefields and shifting alliances the Keepers must first identify the enemy If they make the wrong move the world stands to be crushed by the destructive juggernaut of nuclear war **Imago Mvndi** ,1958 *Naval Battle Of Trafalgar, 1805* André Geraque Kiffer,2021-04-14 Napoleon s naval plan for 1805 was for the French fleet of the Mediterranean and part of the Spanish fleet to break the British blockade and meet in the Caribbean They would then return assist the fleet in Brest to get out of the blockade and together about 50 ships of the line would guarantee a safe passage for the French invasion fleet to Britain Before the battle French Admiral Villeneuve himself had expressed his conviction that Nelson would use some kind of unorthodox attack speculating that he was going to go straight against his line Imagining something different for the British maneuver is difficult considering the fame obtained by Nelson Therefore we will try to test whether it would have been possible for Villeneuve together with Gravina to reverse the historic result making it more worthy to include his name in the Arc de Triomphe **The Spectator** ,1898 A weekly review of politics literature theology and art **Vietnam Journal: Series Two - Volume 3: Ripcord** Don Lomax,2020-06-29 Vietnam Journal the award winning series returns July 1970 Scott Journal Neithammer has been reporting first hand on President Nixon s military incursion into Cambodia to root out the North Vietnamese Army s until then untouchable sanctuaries However this all comes to an abrupt end when he is kidnapped by over zealous Military Police and returned to South Vietnam to face the Provost Marshall s wrath The incident sparks Neithammer s unexpected journey back into the dreaded A Shau Valley where the 101st Airborne Division once again attempts to bloody the noses of the NVA This brings us to the siege of Fire Support Base RIPCORD This is a story of over confidence arrogance and revenge on the part of Military Assistance Command Vietnam in Saigon coupled with an under strength U S force sent to face an enemy who outnumbers them ten to one RIPCORD was the final large unit battle in the waning days of the Vietnam War for the United States The troops were expected to face a massive enemy presence have minimal or no casualties and receive limited ordinance and support while vanquishing a highly motivated and well supplied enemy In the jargon of the boonie rats of the day f king typical RIPCORD a little known battle with an all too predictable outcome Collects Vietnam Journal Series 2 issues 11 15 A Caliber Comics release *The British Battleship 1906-1946* Norman Friedman,2015-09-30 The British battleship is one of the most intensely studied of all naval topics but it is also among the most popular Norman Friedman is one of the most highly

regarded of all naval writers with an avid following for his work Therefore a new book on British battleships by Friedman is a major event and has been eagerly awaited ever since knowledge of the project began to circulate among enthusiasts Friedman has the ability to bring new ideas to even the most over worked subjects based on extensive original research and a talent for explaining technology in the wider context of politics economics and strategy His latest book covers the development of Royal Navy capital ships including battlecruisers from the pre history of the revolutionary Dreadnought of 1906 to the last of the line HMS Vanguard in 1946 Repleat with original insights the story that emerges will enlighten and surprise even the most knowledgeable The attraction of the book is enhanced by sets of specially commissioned plans of the important classes by John Roberts and A D Baker III both renowned experts in their own right plus a colour section featuring the original Admiralty draughts including a spectacular double gatefold For many with an interest in warships this will be the book of the year
