materiality of consumer culture suggests meanings to comics texts beyond the narratives

Consumerism and Prestige Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies between literary production and distinctions of taste by examining how the material aspects of literary texts such as the cover binding typography and paper stock reflect or even determine their cultural status In many cases for example the distinctions between highbrow and lowbrow taste have little to do with the content of the texts themselves as books often function as markers of socioeconomic status like clothing or home decor One might even go so far as to say that the concept of literary taste is more closely related to fashion sense than critical judgment The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology literacy and social power **Investigation and Study of the Work of the Works Progress Administration, Hearings ... 76th Congress, 1st Session** United States. Congress. House. Appropriations, 1939

Superheroes! Roz Kaveney, 2007-12-19 Modern myths cheap trash or the objects of fetishist desire Most people know something about Superman Batman Spider Man and Wonder Woman even if what they know is heavily filtered through film and television versions rather than the comics in which they first appeared Yet even though the continuity of the DC and Marvel Comics universes rival or surpass in size almost anything else in Western culture surprisingly little attention has been paid to comics which we were supposed to grow out of In *Superheroes* acclaimed cultural commentator Roz Kaveney argues that this is a mistake that at their best superhero comics are a form in which some writers and artists are doing fascinating work not in spite of their chosen form but because of it *Superheroes* discusses the slow accretion of comics universes from the thirties to the present day the ongoing debate within the conventions of the

superhero comic about whether superheroes are a good thing and the discussion within the comics fan community of the extent to which superhero comics are disfigured by misogyny and sexism Roz Kaveney attempts to explain the differences between Marvel and DC the notion of the floating present or why Spider Man fifteen when he adopted the costume is still only in his early thirties and the various attempts by both companies to re invent and re boot individual characters and their entire continuity universes She also looks at the influence of comics on the group of film and television screenwriters she calls the fanboy creators all of whom moonlight as comics script writers using Joss Whedon as her case study and examines the adaptation of well known comics into large budget feature films not always to the advantage of the material
