Purpose & Supporting Details	Your writing compares and contrasts ideas clearly. It also includes specific examples to illustrate the comparison. The paper includes only the information relevant to the comparison (no extra stuff).	Your writing compares and contrasts ideas clearly, BUT your supporting information is general (not specific enough). The paper includes only the information relevant to the comparison (no extra stuff).	Your writing compares and contrasts ideas clearly, BUT your supporting information is incomplete (you need more support). The paper may also contain information that is not really relevant to the comparison.	Your writing compares and contrasts ideas clearly, BUT does not include both. There is little to no supporting information or the support is really boring details. Give me more!	Your writing did not focus on comparing and contrast ideas. (I'm confused!)
Organization & Structure	The paper breaks up information to include similarities, differences or point-by-point. You followed a consistent order! Way to go!	The paper breaks up information to include similarities, differences or point-by-point. However, you did not follow a consistent order!	The paper breaks up information to include similarities, differences or point-by-point, BUT some information is in the wrong section. Some details are not in logical or expected order, and this detracts a lot!	Many details in your paper are not in a logical or expected order, it seems around in subject!	The paper has little to no organization.
Grammar & Conventions	You made NO errors in grammar or spelling. Heyo!!	You made 1-2 errors in grammar. Check your proofreading!	You made 3-4 errors in grammar or spelling. Check your proofreading! Cecil, Joan P. Gipe, Merrill E. Marcy, 2017-07-05 Comprehensive yet succinct and readable Literacy in Grades 4 8 Third Edition offers a wealth of practical ideas to help preservice and practicing teachers create a balanced and

comprehensive literacy program while exploring the core topics and issues of literacy in grades 4 through 8 It addresses teaching to standards differentiating instruction for readers and writers motivating students using assessment to inform instruction integrating technology into the classroom working with English learners and struggling readers and connecting with caregivers Selected classroom strategies procedures and activities represent the most effective practices according to research and the many outstanding classroom teachers who were observed and interviewed for the book The Third Edition includes added material connecting the Common Core State Standards to the instruction and assessment of literacy skills a combined word study and vocabulary chapter to help readers integrate these important topics in their teaching more on technology including comprehension of multimodal texts enhancing writing instruction with technology tools and teaching activities with an added technology component added discussion of teacher techniques during text discussions strategic moves that help students become more strategic readers Key features In the Classroom vignettes more than 50 activities some with a technology component questions for journal writing and for projects and field based activities troubleshooting sections offering alternative suggestions and activities for those middle grade students who may find a particular literacy focus challenging Literacy Assessment of Second Language Learners Sandra Rollins Hurley,Josefina Villamil

Tinajero,2001 Theoretical and practical information about assessment in the bilingual and English language learner classrooms *Hollywood or History?* Scott L. Roberts,Charles J. Elfer,2021-01-01 The challenges of teaching history are acute where we consider the world history classroom Generalized world history courses are a part of many if not most K 12 curricular frameworks in the United States While United States history tends to dominate the scholarship and conversation there are an equally wide number of middle level and secondary students and teachers engaged in the study of world history in our public schools And the challenges are real In the first place if we are to mark content coverage as a curricular obstacle in the history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students lives not just temporally but often geographically and culturally Thus the rationale for the present text *Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History* The reviews of the first volume *Hollywood or History An Inquiry Based Strategy for Using Film to Teach Untied States History* strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the *Hollywood or History* strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history We believe that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching world history The book provides 30 secondary lesson plans

grades 6-12 that address nine eras in world history

**Brain-Compatible Mathematics** Diane Ronis, 2015-07-14 Students' brains are wired to make them natural curious learners. The mathematical world around them offers a vast classroom filled with shapes, spaces, quantities, and experiences to discover and explore, all leading to the construction of understanding. Teachers can use this natural curiosity to tap the inborn neural mechanisms that motivate students to learn to make relevance and meaning of their surroundings. *Brain Compatible Mathematics: Second Edition* bridges the findings from the realms of brain research and improved mathematics instruction through updated teaching samples, connections to the most recent standards, newest research findings, and integration to other content areas. Each brain is different, and when teachers teach problem-solving skills to help students arrive at their own solution paths, students go beyond mere memorization of facts and algorithms to being an actual participant in the development of mathematical understanding. In an informative and relevant approach, Diane Ronis presents teachers and math leaders with an emphasis on thinking, mathematical representation, and construction of ideas, and an abundance of sample lessons, units, and strategies linked to 2000 NCTM standards. Brain-friendly strategies for math teaching that meet NCLB requirements. How-to guides for creating more brain-tuned math teaching. Ideas for incorporating technology into the math curriculum. Planning templates for immediate use. By integrating math learning into real-world applications, students can actively practice what they learn, make meaning out of their everyday experiences, and think mathematically for success within today's information age.

*Strategies for Teaching Learners with Special Needs* Edward A. Polloway, James R. Patton, Loretta Serna, 2008. Revised to incorporate important new information about No Child Left Behind and the 2004 reauthorization of IDEA, this classic work in the field of teaching methodology for students with special needs continues to be the most comprehensive textbook available for students with mild to high incidence disabilities, i.e., learning disabilities, mild retardation, intellectual disabilities, emotional and behavioral disorders, and students experiencing learning problems in the general education classroom. The focus of the book is on effective instructional strategies for students being served in diverse educational settings, with a primary emphasis on those being taught in inclusive educational environments. In Part I, the text provides basic information on curriculum development and instruction, while in Part II, an in-depth discussion of key curricular areas is provided. For educators teaching learning-disabled students.

*Becoming Lesbian* Tamara Chaplin, 2024-12-04. A landmark analysis of how a marginalized subculture used modern media to transform public attitudes toward sexual desire. In *Becoming Lesbian*, historian Tamara Chaplin argues that the history of female same-sex intimacy is central to understanding the struggle to control the public sphere. This monumental study draws on undiscovered sources culled from cabaret culture, sexology, police files, radio, TV, photography, the Minitel (an early form of internet), and private letters, as well as over one hundred interviews filmed by the author. *Becoming*

Lesbian demonstrates how women of diverse classes and races came to define themselves as lesbian and used public spaces and public media to exert claims on the world around them in ways that made possible new forms of gendered and sexual citizenship Chaplin begins in the sapphic cabarets of interwar Paris These venues she shows exploited female same sex desire for profit while simultaneously launching an incipient queer female counterpublic Refuting claims that World War II destroyed this female world Chaplin reveals instead how prewar sapphic subcultures flourished in the postwar period laying crucial groundwork for the politicization of lesbian identity into the twenty first century Becoming Lesbian is filled with colorful vignettes about female cabaret owners singers TV personalities writers and activists all brought to life to make larger points about rights belonging and citizenship As a history of lesbianism this book represents a major contribution to modern French history queer studies and genealogies of the media and its publics **The Hitchhiker's Guide to Writing**
