**Barack Obama and the Politics of Redemption** Stanley A. Renshon,2012-03-15 Every new president raises many questions in the public mind Because Barack Obama was a relative newcomer to the national political scene he raised more questions than most Would he prove to be a pragmatic centrist or would his politics of hope ultimately flounder on the rocky shoals of America s deep political divisions What of his leadership style How would the uncommonly calm character he demonstrated on the campaign trail shape Obama s political style as commander in chief Based on extensive biographical psychological and political research and analysis noted political

psychologist Stanley Renshon follows Obama's presidency through the first two years. He digs into the question of who is the real Obama and assesses the advantages and limitations that he brings to the presidency. These questions cannot be answered without recourse to psychological analysis. And they cannot be answered without psychological knowledge of presidential leadership and the presidency itself. Renshon explains that Obama's ambition has been fueled by a desire for redemption, his own, that of his parents, and ultimately for the country he now leads, which has enormous consequences for his choices as president of a politically divided America.

**Obama's Wars** Bob Woodward, 2011-05-03 Woodward shows Obama making the critical decisions on the Afghanistan War, the secret war in Pakistan, and the worldwide fight against terrorism.

**Greed to Green** Charles Derber, 2015-11-17 This book shows how we can solve the climate change crisis, which is the greatest threat humanity has faced. Charles Derber, a prominent sociologist and political economist, shows that global warming is a symptom of deep pathologies in global capitalism. In conversational and passionate writing, Derber shows that climate change is capitalism's time bomb, certain to explode unless we rapidly transform our economy and create a new green American Dream. Derber shows there is hope in the financial meltdown and Great Recession we are now suffering. The economic crisis has raised deep questions about Wall Street and the US capitalist model. Derber systematically explores the causal links between capitalism and climate change, a taboo subject in the US, and opens up new thinking to solve both the economic and climate crises.

**Imperiled Whiteness** Penelope Ingram, 2023-06-23 In *Imperiled Whiteness*, Penelope Ingram examines the role played by media in the resurgence of white nationalism and neo-Nazi movements in the Obama to Trump era. As politicians on the right stoked anxieties about whites losing ground and being left behind, media platforms turned whiteness into a commodity that was packaged and disseminated to a white populace. Reading popular film and television franchises like *Planet of the Apes*, *Star Trek*, and *The Walking Dead* through political flashpoints such as debates over immigration reform, gun control, and Black Lives Matter protests, Ingram reveals how media cultivated feelings of white vulnerability and loss among white consumers. By exploring the convergence of entertainment news and social media in a digital networked environment, Ingram demonstrates how media's renewed attention to imperiled whiteness enabled and sanctioned the return of overt white supremacy exhibited by alt-right groups in the Unite the Right rally in Charlottesville in 2017 and the Capitol riots in 2021.

**African Americans Against the Bomb** Vincent J. Intondi, 2023-05-25 A well-researched, succinct account of African American involvement in the crusade to contain the threat of atomic warfare. Highly recommended. CHOICE. Well before Rev. Dr. Martin Luther King Jr. spoke out against nuclear weapons, African Americans were protesting the Bomb. Historians have generally ignored African Americans when studying the anti-nuclear movement, yet they were some of the first citizens to protest Truman's decision to drop atomic bombs in Hiroshima and Nagasaki in 1945. Now, for the first time, *African Americans Against the Bomb* tells the compelling story of those black activists who fought for nuclear disarmament by connecting the nuclear issue with the fight for racial equality. Intondi shows that from early on

blacks in America saw the use of atomic bombs as a racial issue asking why such enormous resources were being spent building nuclear arms instead of being used to improve impoverished communities Black activists fears that race played a role in the decision to deploy atomic bombs only increased when the US threatened to use nuclear weapons in Korea in the 1950s and Vietnam a decade later For black leftists in Popular Front groups the nuclear issue was connected to colonialism the US obtained uranium from the Belgian controlled Congo and the French tested their nuclear weapons in the Sahara By expanding traditional research in the history of the nuclear disarmament movement to look at black liberals clergy artists musicians and civil rights leaders Intondi reveals the links between the black freedom movement in America and issues of global peace From Langston Hughes through Lorraine Hansberry to President Obama African Americans Against the Bomb offers an eye opening account of the continuous involvement of African Americans who recognized that the rise of nuclear weapons was a threat to the civil rights of all people Praise for African Americans Against the Bomb Intondi s original research will shake the complacent assumption that the civil rights and anti nuclear movements could be segregated Intondi shows that ever since the Bomb first was dropped on people of color in 1945 African Americans have been in the forefront of the campaign to stop the deployment of nuclear weapons Brilliant Tom Hayden Director of the Peace and Justice Resource Center Dr King spoke of the need to fight against racism materialism and militarism and Intondi s stirring narrative effectively shows how nuclear disarmament was part of the broader struggle This is an important read for those who are interested in properly understanding the black freedom movement and U S foreign policy Benjamin Todd Jealous former President and CEO of the NAACP

**The Trumping of America** Pamela Hines, 2018-08 Trump alone is not to blame How does it reflect on North American societal values when wealth trumps humanity selfish individualism trumps compassion the need to be entertained and to win trumps the truth and racism and misogyny are rewarded with the most powerful position in the world The political rise of Donald Trump from the cutthroat Republican primary process to his move to the White House has ushered in a new age of politics in the United States This is a comprehensive analysis of the events surrounding the 2016 presidential election and the unprecedented first year of Donald Trump s presidency Pamela Hines highlights the growing distortion of American democracy which threatens political systems around the world As a Canadian living just across the border Hines provides a unique perspective on the international impact of the election explores the roles of religion racism nationalism and gender bias and critiques the media and its reckless coverage of Trump s ascension The Trump presidency is

a wake up call to citizens of the free world Democracy is at risk yet power remains in the hands of the people This assault on democracy can be curtailed only if voters make informed decisions and understand the consequences of their choices while they still have the right to choose

*International Security Assistance Management* ,2010 State Responses to Nuclear Proliferation Brian K.

Chappell,2021-01-07 Contemporary fears of rogue state nuclear proliferation and nuclear terrorism pose unique challenges for the global community This book offers a unique approach by examining why states that have the military capability to severely damage a proliferating state s nuclear program instead choose to pursue coercive diplomacy The author argues cognitive psychological influences including the trauma derived from national tragedies like the September 11th attacks and the Holocaust and a history of armed conflict increase the threat perceptions of foreign policy decision makers when confronting a state perceived to be challenging the existing power structure by pursuing a nuclear weapon The powerful state s degree of perceived threat combined with its national security policies military power projection capabilities and public support then influence whether it will take no action use coercive diplomacy sanctions or employ military force to address the weaker state s nuclear ambitions **The Immaculate Mistake** Rodney Wallace Kennedy,2021-09-23 President

Donald Trump originated his political career by acbirtheriasm theory was discredited but there s another possibility aboutac birth Evangelicals have given birth to Donald Trump in the immaculate mistake Evangelicals are not a collection of dumb and irrational people they are the creators of the demolition presidency of Trump He is their child the result of almost one hundred years of evangelical angst resentment and hurt This is the story of how Trump has become a secular evangelical preacher and his message of fear hatred division and getting even has captured the hearts and minds of evangelicals Rather than dismissing them this work takes them seriously and literally and offers a frank and disturbing series of portraits of their determination to win at all costs *From Edward Brooke to Barack Obama* Dennis S. Nordin,2012-06-25 In 2008 American

history was forever changed with the election of Barack Obama the United States first African American president However Obama was far from the first African American to run for a public office or to face the complexities of race in a political campaign For over a century offices ranging from city mayor to state senator have been filled by African Americans making race a factor in many elections In *From Edward Brooke to Barack Obama* Dennis S Nordin navigates the history of biracial elections by examining the experiences of a variety of African American politicians from across the country revealing how voters both black and white respond to the issue of race in an election The idea to compare the African American political experience across several levels of office first occurred to Nordin as he was researching Arthur W Mitchell s 1934 congressional campaign The question of white voter support was of particular significance as was whether the continuation of that support depended upon his avoiding minority issues in office To begin answering these questions and others Nordin compares the experiences of eleven African American politicians Taken from across the country to ensure a wide sample and accurate depiction of the subject the case studies examined include Tom Bradley mayor of Los Angeles David Dinkins mayor of New York Freeman Bosley Jr mayor of St Louis Senator Edward Brooke of Massachusetts Senator Carol Moseley Braun of Illinois Governor L Douglas Wilder of Virginia and Representative J C Watts Jr of Oklahoma among others As Nordin analyzes these individuals and their contribution to the whole he concludes that biracial elections in the United States have yet to progress beyond race From Edward Brooke to Barack Obama investigates the implications of race in politics a highly relevant topic in today s American society It offers readers a chronological overview of the progress made over the last several decades as well as shows where there is room for growth in the political arena By taking a pertinent topic for the era and placing it in the context of history Nordin successfully chronicles the roles of race and race relations in American politics

*Nuclear Nightmares* Joseph Cirincione, 2013-11-26 There is a high risk that someone will use by accident or design one or more of the 17 000 nuclear weapons in the world today Many thought such threats ended with the Cold War or that current policies can prevent or contain nuclear disaster They are dead wrong these weapons possessed by states large and small stable and unstable remain an ongoing nightmare Joe Cirincione surveys the best thinking and worst fears of experts specializing in nuclear warfare and assesses the efforts to reduce or eliminate these nuclear dangers His book offers hope in the 1960s twenty three states had nuclear weapons and research programs today only ten states have weapons or are seeking them More countries have abandoned nuclear weapon programs than have developed them and global arsenals are just one quarter of what they were during the Cold War Yet can these trends continue or are we on the brink of a new arms race or worse nuclear war A former member of President Obama s nuclear policy team Cirincione helped shape the policies unveiled in Prague in 2009 and as president of an organization intent on reducing nuclear threats he operates at the center of debates on nuclear terrorism new nuclear nations and the risks of existing arsenals

**The Polythink Syndrome** Alex Mintz, Carly Wayne, 2016-01-20 Why do presidents and their advisors often make sub optimal decisions on military intervention escalation de escalation and termination of conflicts The leading concept of group dynamics groupthink offers one explanation policy making groups make sub optimal decisions due to their desire for conformity and uniformity over dissent leading to a failure to consider other relevant possibilities But presidential advisory groups are often fragmented and divisive This book therefore scrutinizes polythink a group decision making dynamic whereby different members in a decision making unit espouse a plurality of opinions and divergent policy prescriptions resulting in a disjointed decision making process or even decision paralysis The book analyzes eleven national security decisions including the national security policy designed prior to the terrorist attacks of 9 11 the decisions to enter into and withdraw from Afghanistan and Iraq the 2007 surge decision the crisis over the Iranian nuclear program the UN Security Council decision on the Syrian Civil War the faltering Kerry Peace Process in the Middle East and the U S decision on military operations against ISIS Based on the analysis of these case studies the authors address implications of the polythink phenomenon including prescriptions for avoiding and or overcoming it and develop strategies and tools for what they call Productive Polythink The authors also show the applicability of polythink to business industry and everyday decisions
