This book doesn't teach mathematics. It is a test series, a quality control measure. It identifies deficiencies in a student's learning so that remedial action may be taken. If your child is good in mathematics, he/she can quickly solve the test series and confirm that his/her fundamentals are strong. If your child is weak, it will help in improving his/her mathematics by identifying his/her weak areas. The child can learn at his/her own pace, one skill at a time. This book is for all boards. It is for classes 1-10 but most importantly for classes 5-8. It has a selection from the skills that are taught in school. These selected skills may be called Vitamaths or Vital mathematics.
