Wrong-Doing, Truth-Telling Michel Foucault, 2014-06-04 Three years before his death Michel Foucault gave a series of lectures at the Catholic University of Louvain that have remained relatively unknown until only recently Entitled *Wrong Doing Truth Telling* these lectures provides the missing link between Foucault s early work on sexuality and punishment and his later work on Greek and Roman antiquity Ranging broadly from Homer to the 20th century Foucault traces how the early ethical acts of truth telling in ancient Greece gradually metamorphosed into acts of self incrimination in monastic times and ultimately into the birth and rise of psychiatry as the foundation of modern penology criminology and criminal justice For Foucault self incrimination no longer did the work necessary to quell justice because by the 19th century we wanted to know more than just the fact of wrongdoing we wanted to know who the criminal was not just whether the accused committed the crime but what it was about him that made him commit the crime An avowal of wrong doing was no longer sufficient psychiatric expertise was now necessary and that development marks the birth of discipline and modern criminal justice made so famous by Foucault

East and West René Guénon, 2004-05 In *East and West* Gu non diagnoses the fundamental abnormality of Western civilization vis vis the traditional civilizations of the East suggests avenues by which the West might be re oriented toward the fundamental metaphysical principles it has largely abandoned and outlines the possible role of a restoration of true intellectuality in this task Of course *East and West* are no longer what they were in Guenon s time The aggressive rationalism and materialism of post Christian Western culture has become a worldwide phenomenon and no longer corrodes the philosophical and cultural underpinnings of the West only it has infiltrated distorted forms of Eastern spirituality and metaphysics incited fundamentalist reactions the world over and thanks to the pervasive internet wields previously unheard of influence And so today we have an East largely inflamed with a desire to surpass the West in materialism and a West sodden with moral and spiritual degeneracy Nonetheless fruitful exchanges between traditional Christianity and Eastern religions have also taken place on an unprecedented scale though marred by an ongoing temptation to ill informed syncretism In such a milieu Gu non s *East and West* read with an eye to events of recent decades delivers a stunning intellectual punch But the East is always the East the place where the sun rises the point of recollection and return to the Source And the West is always the West the place of the full manifestation of possibilities including the most degenerate of the tendency to dissipation and dissolution the point where the sun sets In postmodern global culture we are all more or less forced to be Westerners outwardly our only recourse under these circumstances may be to become Easterners within

Oriental Prospects , 2022-07-04 A great deal of stimulating and valuable discussion as well as some indignation and hot air has been stimulated by Edward Said whose provocative study of Orientalism *Western Conceptions of the Orient* appeared twenty years ago This present book will we believe be recognized as a worthy addition to the many attempts that have since been made to sift the intrinsic and ingrained attitudes of West to East The fifteen articles in *Oriental*

Prospects Western Literature and the Lure of the East cover literature from the Renaissance through the eighteenth and nineteenth centuries to the modern period some in pragmatic accounts of responses to and uses of experiences of the Orient and its cultural attitudes and artefacts others contending more theoretically with issues that Edward Said has raised Despite all the misunderstanding prejudice and propaganda in the scholarly and literary depiction of the Orient still today as in the past what emerges from this wide range of articles is that no species of literary text or academic study can appear without risking the accusation of escapist exoticism or cultural and economic exploitation and thus regrettably masking the essential and vital significance of the political and the real and imaginative trading between East and West

Wojtkowski,2010-07-12 In 1798 Napol on I launched his Egyptian Campaign and opened what has become recognized as the canonic period of French Orientalism which extends from the late eighteenth through the early twentieth century As defined by Edward W Said Orientalism 1978 Orientalism is intrinsically Eurocentric and places the Orient in opposition to the European West as the quintessentially foreign Other In this sense the Occident supposedly defines itself by gazing at the East as its inverse image and purportedly asserts a geopolitical dominance materially confirmed through imperialism and colonization Although Europe may cast the Orient as the archetypal Other this necessarily entails deep conflict since the

Orient is also frequently posited as the source of Western civilization which prohibits the articulation of a complete separation between Europe and the Orient Nevertheless according to French Orientalist discourse the East had fallen into barbarism inertia and languished awaiting the mission civilisatrice by which France undertook a heroic project of universal enlightenment The canonic approach to Orientalism has drawn much criticism which calls for re examining the notion of French Orientalism broadening the scope of enquiry and exploring the history and ideological strategies behind French formulations of the Orient from the Middle Ages through the twenty first century Such an expanded field of investigation reveals that the canonic Orientalist paradigm is not universally applicable particularly regarding material from before the late eighteenth century New theoretical literary historical philosophical and cultural perspectives provide the opportunity to deploy question subvert and resituate canonic Orientalist theories revealing the continuing evolution and relevance of French Orientalism as a notion with global stakes and material consequences Because of its broad scope and variety of theoretical approaches this volume will interest scholars and students from a wide spectrum of disciplines including literature gender studies history theater art history music cinema and cultural studies
