Koehler's West Point Manual of Disciplinary Physical Training Herman John Koehler, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1919 edition Excerpt SECTION IX SETTING UP EXERCISES FOR RECRUITS PARAGRAPH What the course comprises 141 142 Number of times an exercise should be performed 143 Progressive difficulty and how obtained 144 147 Terminology 148 Respiration and its relation to exercise 149 151 Lessons 152 165 141 What the Course Comprises The course consists of one preliminary and six

regular lessons Each lesson should be thoroughly mastered before an advance lesson is attempted It is recommended that one week each be devoted to the preliminary and the first lesson and two weeks to each of the following five 142 Nothing should be sacrificed for the sake of making the drill spectacular the physiological value of every exercise should be brought out fully and the disciplinary value precision smartness activity and unity of action must be insisted upon consistently and persistently By doing this instructors will lay the best foundation for the ready and precise acquirement of all other drills 143

The Number of Times an Exercise Should Be Performed This has not been prescribed as the number of repetitions any body of men may indulge in with benefit to themselves depends entirely upon the strength condition and aptitude of the men and upon the efficiency competence and judgment of the instructor who will find that he is defeating the purpose of this training if he fails to take these into consideration and does not proceed carefully and progressively both as to the quantity and the quality of the task he is exacting 144 Progressive Difficulty and How Obtained In general the amount of energy required to perform an exercise may be progressively increased by increased repetitions or increased cadence When this is done the increased difficulty is derived

Manual of Exercises in Physical Training, Vol. 1 (Classic Reprint) Carl Ziegler, 2018-01-31 Excerpt from Manual of Exercises in Physical Training Vol 1 Since those who do the actual teaching are the ones who should understand the needs and conditions best all the members of the Physical Training Department were called in conference This book embodies many features suggested by their experience It is only when we attain correct and energetic execution on the part of the pupils when teachers and pupils alike have grasped the purpose of each exercise so as to be able to detect and correct faulty execution that we may hope for those results which alone justify teaching this subject In order that the greatest possible good may accrue to the pupils the teachers must thoroughly acquaint themselves with the subject matter The Instructions to Teachers the descriptions of the exercises the manner of giving commands as well as the lessons which are to be given must be carefully studied Teachers must also observe closely the work of the special teachers and learn the best methods of giving a gymnastic lesson In this way they will learn to use to the best possible advantage the limited time allowed this subject The lessons must be memorized so that they can be given without reference to the book There must be a regular time in the daily program for the exercises and at this time the complete lesson should be given The conditions under which the work is conducted in the regular class room are not altogether favorable For this reason the success of the lesson will depend largely upon the attitude of the class teacher The fidelity and faithful cooperation of the teachers and those in charge of the schools will determine the results attained This manual contains fifty lessons each of which is intended to be for two weeks Each grade will use twenty lessons as follows About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such
