*A Universal Template for Research Position and Life Experience Papers* Dale Drakeford,2005-03 The self descriptive title A Universal Template For Research Position and Life Experience Papers implies that there is a position that writers take in even the simplest of essays As such Template provides an opportunity to accomplish two tasks at once consider the definitive differences between Research Position and Experience papers and explore the issues that impound and empower contemporary urban education Dale Benjamin Drakeford provides an interactive workshop to guide student writing on any social science subject Agreeing with many scholars that public and free pedagogy is indispensable the author also argues that there is no wrong or right in scholastic debate only correct presentation of objective thoughts or non objective attitudes This the author says is what is sometimes forgotten in the heat of getting ideas on paper Hence Template provides structure for planning papers and in process cues for staying on task to complete them with proper formality

*The Practical Researcher* Dana S. Dunn,2009-07-07 In The Practical Researcher

Dana S Dunn's student friendly writing style and personal tone provide readers with a practical and engaging introduction to research methods in psychology. Using basic theory, solid research practices and step by step techniques, the author leads students through the process of conducting a project from start to finish. The importance of learning to search, read and critique the psychological literature as well as writing clearly about it is emphasized throughout. Packed with useful decision trees, tables, checklists and illustrations, this clear and precise book will equip students with the tools they need to carry out their research successfully. Special Features: New Doing Research decision trees open each chapter and guide students through the active learning exercises that inform the research process. Research Foundations boxes explore common issues encountered by researchers and use examples to bring research to life. Practical tools and tips for doing research appear throughout such as writing an experimental script, operationalizing independent and dependent variables and creating manipulation checks among many others. Over 40 Active Learning Exercises help students build practical skills such as creating a project timeline, developing a peer research contract using a random numbers table and reporting results in poster or paper form among many others. Generating Research Ideas section provides easy to follow guidelines for developing ideas by using freewriting, keeping a research notebook or brainstorming research ideas alone or as a research team. Critical thinking is emphasized when searching, reading and writing about psychological literature. Updated chapter on Ethical Considerations in the Practice of Research includes a solid foundation and practical exercises e.g. completing an IRB form for an ethics review, writing an informed consent form, crafting a scientifically and ethically sound debriefing script. Updated references and research practices includes the latest APA Ethical Principles of Psychologists and Code of Conduct. Expanded advice on presenting research at student conferences and submitting project results to student journals. New annotated student paper in Appendix A.
