Dairy...what was Dairy like? He's..."I started to say he was a good ol' guy but I couldn't. I burst out bitterly: He's not like Sodapop at all and he sure ain't like me. He's hard as a rock and about as human. He's got eyes exactly like frozen ice. He likes Soda—but he can't stand me. I bet he wishes he could stick me in a home somewhere, and he'd do it, too, if soda'd let him."

Two-Bit and Johnny were staring at me now. "No..." Two-Bit said, dumbfounded. "No, Ponyboy, that ain't right...you got it wrong..."

"Gee," Johnny said softly, "I thought you and Darry and Soda got along real well..."

"Well, we don't," I snapped, feeling silly. I knew my ears were red by the way they were burning, and I was thankful for the darkness. I felt stupid. Compared to Johnny's home, mine was heaven. At least Darry didn't get drunk and beat me up or run me out of the house, and I had Sodapop to talk things over with. That made me mad, I mean making a fool of myself in front of everyone. "An you can shut your trap, Johnny Cade, 'cause we all know you ain't wanted at home, either. And you can't blame them."

In complete sentence / paragraph form, respond to the following prompts based on the above passage.

- Why does Ponyboy snap at Johnny?
- Why is the insult the worst he could say to Johnny?
- Share a time when you've had those same feelings as Ponyboy and lashed out at someone.
- Explain why we lash out at those we care about.
- What can we learn from this?

The Media, Animal Conservation and Environmental Education John

Blewitt, 2013-10-31 Natural History filmmaking has a long history but the generic boundaries between it and environmental and conservation filmmaking are blurred Nature environment and animal imagery has been a mainstay of television campaigning organisations and conservation bodies from Greenpeace to the Sierra Club with vibrant images being used effectively on posters leaflets and postcards and in coffee table books media releases short films and viral emails to educate and inform the general public However critics suggest that wildlife film and photography frequently convey a false image of the state of the world s flora and fauna The environmental educator David Orr once remarked that all education is environmental education and it is possible to see all image based communication in the same way The Media Animal Conservation and Environmental Education has contributions from filmmakers photographers researchers and academics from across the globe It explores the various ways in which film television and video are and can be used by conservationists and educators to encourage both a greater awareness of environmental and conservation issues and practical action designed to help endangered species This book is based on a special issue of the journal Environmental Education Research

Composing a Teacher Study Group Richard J. Meyer, With Linda Brown, Elizabeth DeNino, Kimberly Larson, Mona McKenzie, 2013-10-18 There has been a flurry of writing about teachers as inquirers and researchers as well as books about children as inquirers This volume brings these two areas together teachers and students are inquiring at Ridgeway Elementary School It demonstrates the importance of thought collectives as forums for student and teacher learning The children in the primary classrooms in this book are working to understand the world around them and their place in it as literate individuals Their teachers are studying themselves and the students No other book describes the way this work affects children teachers and the ethos of the school in which the work occurs In that sense this book is groundbreaking in

that it is an honest portrayal of the joys and sorrows the successes and the stumbling blocks the clear vision and the obfuscating that teachers live as they enact a life of asking questions being curious wandering and wondering Acknowledging and honoring the many faces of inquiry in schools this book demonstrates the children s inquiry their teachers inquiry and the place of that inquiry in schools It lays out the ways in which inquiry is fundamental to teaching and learning in a democracy in which all of the members of the community have a voice in deciding curricular directions and ways of presenting learning Teachers are presented as thinkers and learners not merely as technicians enacting others views of what is to be learned and when Readers will find teachers dealing with the real issues of life in schools they will see how teachers can use their existing situations as points of departure for their growth and their students learning

Pedagogies for Transformative Teaching, Learning, and Being Jing Lin, Tom E. Culham, Sachi Edwards, 2019-11-01 In our current systems of education there is a trend toward compartmentalizing knowledge standardizing assessments of learning and focusing primarily on quantifiable and positivist forms of inquiry Contemplative inquiry on the other hand takes us on a transformative pathway toward wisdom morality integrity equanimity and joy Zajonc 2009 These holistic learning practices are needed as a counterbalance to the over emphasis on positivism that we see today In addition to learning quantifiable information we also need to learn to be calmer wiser kinder and happier This book aims to find and share various pathways leading to these ends This book will describe educational endeavors in various settings that use contemplative pedagogies to enable students to achieve deep learning peace tranquility equanimity and wisdom to gain new understanding about self and life and to grow holistically Embodiment is a central concept in this book We hope to highlight strategies for exploring internal wisdoms through engaging ourselves beyond simply the rational mind Contemplative pedagogies such as meditation yoga tai chi dance arts poetry reflective writing and movements can help students embody what they learn by integrating their body heart mind and spirit *The Student's Guide to Studying Psychology* Thomas M Heffernan, 2015-06-19 Studying a degree course in psychology even if you've taken the subject before university requires a whole range of new skills and knowledge And the 4th edition of this best selling guide is an invaluable companion It can not only help you to get a good final degree but will also support you in making informed choices towards either a career or further study Updated to include the latest developments in the field the new edition provides practical and helpful guidance on everything a psychology student encounters throughout their degree including Writing essays and research reports including how to get your referencing right Guidelines for researching ethically using humans or animals An overview of research methods and statistics including qualitative methods Tips on how to approach and pass your exams Advice on becoming a graduate including preparing your CV and making the most of your degree Featuring advice to help you every step of the way the book also includes a library of weblinks to provide further resources to support your studies This is an essential book for any psychology student wishing to make the most of their degree course Learning Science in the Schools Shawn M. Glynn, Reinders Duit, 2012-10-12 Science and the technology derived from it is having a dramatic impact on the quality of our personal lives and the environment around us Science will have an even greater impact on the lives of our students The lives of scientifically literate students will be enriched by their understanding appreciation and enjoyment of the natural world To prosper in the near future all students must become scientifically literate and embrace the notion of

life long learning in science Without scientific literacy it will become impossible for students to make informed decisions about the interrelated educational scientific and social issues that will confront them in the future Intended for science teachers teacher educators researchers and administrators this volume is concerned with the innovative research that is reforming how science is learned in schools The chapters provide overviews of current research and illustrate how the findings of this research are being applied in schools This research based knowledge is essential for effective science instruction The contributors are leading authorities in science education and their chapters draw clear connections among research theory and classroom practice They provide excellent examples from science classes in which their research has reformed practice This book will help educators develop the scientific literacy of students It bridges the gap between cutting edge research and classroom practice to provide educators with the knowledge they need to foster students scientific literacy

Zoo Talk Patricia G. Patrick, Sue Dale Tunnicliffe, 2012-09-29 Founded on the premise that zoos are bilingual that the zoo in the shape of its staff and exhibits and its visitors speak distinct languages this enlightening analysis of the informal learning that occurs in zoos examines the speech of exhibits and staff as well as the discourse of visitors beginning in the earliest years Using real life conversations among visitors as a basis for discussion the authors interrogate children s responses to the exhibits and by doing so develop an informal learning model and a zoo knowledge model that prompts suggestions for activities that classroom educators can use before during and after a zoo visit Their analysis of the visitor voice informs creative suggestions for how to enhance the educational experiences of young patrons By assessing visitors entry knowledge and their interpretations of the exhibits the authors establish a baseline for zoos that helps them to refine their communication with visitors for example in expanding knowledge of issues concerning biodiversity and biological conservation The book includes practical advice for zoo and classroom educators about positive ways to prepare for zoo visits engaging activities during visits and follow up work that maximizes the pedagogical benefits It also reflects on the interplay between the developing role of zoos as facilitators of learning and the ways in which zoos help visitors assimilate the knowledge on offer In addition to being essential reading for educators in zoos and in the classroom this volume is full of insights with much broader contextual relevance for getting the most out of museum visits and field trips in general
