When you are competing against 800 million business websites on the Internet, you have to have an edge. There is an exact science in how to get your website to page one of an Internet search, and it is different for each search engine. Not only that, it changes every single year. For 2011, this book will teach you the science. Don't worry; it covers the latest techniques for optimizing for Google, Instant, Google Instant Preview, and Google Caffeine.
